ARMY DISCIPLINE IS FIRST SAYS UNIONIST

Earl of Derby Would Bolt Party
If Shown Against Funda-
mental Rule

PREPARED TO WELCOME CONCESSION ALL ROUND

Cannot See How but Many
Problems Have Been Solved
by Thinking

SITUATION HAS GROWN INTENSE IN 3 YEARS

London, April 20.—The Earl of Derby, who is often regarded as the dark horse of the Unionist party and spoken of as the future Unionist premier, made an interesting speech at Southport on Saturday on the Irish question. "If I believed the party to which I belong was deliberately setting itself to make the army disobey the fundamental rule of discipline I would not have the slightest hesitation in leaving that party and denouncing it for what it had done," exclaimed Lord Derby.

He agreed with the description of "hellish intention" concerning the action of certain members of the cabinet to provoke an insurrection in Ulster by their speeches. He was one who, three years ago, would have asked his audience to resist Home Rule as a general principle and without any advance towards a settlement.

He believed it was a bad thing for the country as a whole and did not believe that any concession could make it better, but he said he must, at the same time, admit that within the last three years fresh passions had been roused and it would not be possible now to go back to the position which, gradually, to a certain extent, had been abandoned. Therefore, said Lord Derby, he was prepared to see concessions made on his side if concessions were made on the other side.

He did not quite see, he confessed, how this could be brought about but many problems could be solved by thinking.

PRACTICE MARCH ENDS DIVISION TURNS BACK

Navy Department Charters Liner for
Refuge Ship at
Tampico.

Houston, Tex., April 20.—The second division of the United States army, here on a practice march, began today a hurried movement back to Texas City and Galveston, on orders received from Washington at 3 o'clock this morning.

The plan to have the fifth brigade, numbering 2,500 men, ready for sailing to Vera Cruz by Tuesday morning in case a troop movement should be ordered.

Washington, D. C., April 20.—The navy department to-day chartered the Ward liner Mexico, now in Mexican Gulf waters, for a refugee ship at Tampico. The war department took option on several ships to be used as transports.

STEAMER IN FLAMES EXPLOSION IS FEARED

Halifax, N. S., April 20.—The steamer A. W. Perry caught fire this morning. The blaze originated in her engine room and had assumed serious proportions by noon, spreading to the holds and threatening heavy damage to the cargo.

The crew fought all morning in constant fear that thirty cylinders of gas consigned to local aerated water makers would explode. The latest reports show that the ship is threatened with destruction.

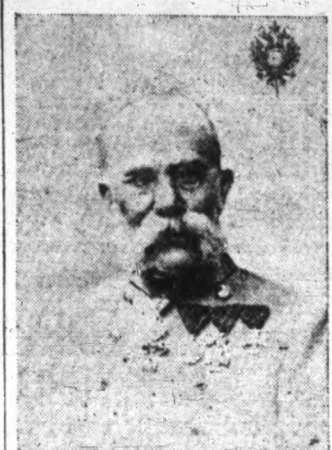

EXPLOSION AT MACOUN SIX PERSONS KILLED

Estevan, Sask., April 20.—An explosion is reported at Macoun. Six are killed and several injured. The hotel is on fire and the injured are expected here by the first incoming train. Owing to the telephone service being out of commission, only meagre details are obtainable.

BAD MAN IS WOUNDED IN ASSAULTING WIFE

Fernie, B. C., April 20.—Arthur Green, a colored man at Coal Creek mines, made a brutal assault on his wife last night and now lies in the morgue from a knife wound received from her in self-defense. Deceased has long been a source of trouble in the camp and had the reputation of being a bad man.

EMPEROR OF AUSTRIA SUDDENLY TAKEN ILL PHYSICIANS CALLED

EMPEROR FRANCIS JOSEPH

Vienna, April 20.—Emperor Joseph was taken ill suddenly yesterday, and court physicians were called to attend him at the royal palace.

The following bulletin was issued today at the palace of Schoenbrunn: "The Emperor Francis Joseph passed a fairly comfortable night. His health is not satisfactory."

BATTLE BEING FOUGHT IN HILLS OF COLORADO

Three Hundred Coal Mine Men on
Strike Are Armed Against
Troops.

Denver, Colo., April 20.—Reports received at the office of Adjutant-General John Chase to-day stated that a sharp battle was in progress in the hills between Berwind and Hastings, in the Colorado coal strike district. One report was that Lieut. Linderfelt, with seventeen men, had been cut off by strikers when a machine gun they were operating failed to work.

The first official report came from Major P. J. Hamrock, in charge of the forty-five militiamen left in the district north of Trinidad. He told General Chase that 300 armed strikers were in the hills above Berwind canon. General Chase ordered him to take his troops and drive them out. At the same time a fresh troop of forty-seven men recently recruited in the strike district was put into active service.

A later report from Major Hamrock stated that a battle was in progress in the hills.

FORT WILLIAM FLEET SOON LEAVES HARBOR

Fort William, April 20.—Only one steamer, the Dwyer, with grain for Buffalo has orders to leave the head of the lakes to-day, and it will not clear until after the return this afternoon of tug sent out into the Bay to investigate reported bad ice conditions. The weather is fine and it is probable that tomorrow or Wednesday at latest will see the last of the fleet which wintered here on their way down the lakes.

SENTENCED TO HANG ASKS INVESTIGATION

Halifax, N. S., April 20.—Edward Cook was to-day sentenced to be hanged on June 30 for the murder of Austin, an Assyrian pedlar. He made a statement saying another man committed the murder and asked that his story be investigated.

SCOTS LEAVE HEATHER FOR COUNTRY OF FIR

London, April 20.—The Scottish emigration season opened Saturday, when a total of 1,670 emigrants left for Canada, this being less than half the number carried at the corresponding period last year. The steamer Corcan carried 750, the Saturnia 320 and the Caledonia 600.

The Annual General Meeting of the Victoria Liberal Association

Will be held in the Association
Rooms, 617 Cormorant
St., on

Wed. April 22

At 8 O'clock P. M.

Business: Election of officers for the ensuing year and general business. All Liberals are cordially invited to be present.

Secretary.

THREATENS STRIKE SHOULD WAR COME

Industrial Workers' Leader
Brings New Element Into
Situation

SOCIALIST SPEAKER PROMISES SUPPORT

McReynolds Says Arrests for
Sedition Would at Once
Be Made

PART OF CAMPAIGN TO GET RYAN FROM JAIL

New York, April 20.—William Haywood, founder and chief organizer of the I. W. W., told an audience which more than half filled Carnegie hall last night that the minute President Wilson and congress declared war against Mexico they would automatically start the greatest strike the country has ever known. Supplementing Haywood's threat, Ernest Bohm later told the audience that all Socialists would favor a general strike against war with Mexico. "It would be a test," he said, "of the working people's power to conduct a general strike against the capitalists."

Haywood, in the course of his speech, said that he prophesied the great strike upon authority of the United Mine Workers of America and the Western Federation of Miners. "The mine workers of this country," he said to his inflamed hearers, "will simply fold their arms and when they fold their arms there will be no war."

"Sherman said war was hell. Well, then, let the bankers go to war with them. Let the interest takers and the dividend takers go to war with them. If only those parasites were out of the country it would be a pretty decent place to live in. They live on graft and if they stay here the best that I can promise them is that we will speedily bring them to the day when they will turn over the keys of the city to the marching men, such as Frank Tannenbaum led against the churches."

Haywood said the mine workers already had made up their minds about what they would do in case of war. He said they had already done all the voting necessary and that the situation purposely was arranged so that President Wilson might automatically start the general strike himself. "You may say," said Haywood, "that this action of the mine workers is traitorous to the country, but I tell you it is better to be a traitor to a country than to be a traitor to your class. We are through with trying to make brilliant individuals and men of brilliant individual success in life. We want now a whole class that is permeated through with leaders who will fight, not for themselves, but for their class."

Washington, April 20.—Attorney-General McReynolds could not be seen late last night, but it was learned that an emergency as that suggested by Haywood's speech in New York last night, and his course of action had been fully decided upon.

At the department of justice the view was expressed that the threat to bring on a general strike to prevent the government from going to war with Mexico was seditious and the summary arrest of any man who attempted to execute such a threat would speedily follow proof of the act.

"That is the vilest blackmail," said an official of the department of justice when the declaration of Haywood was called to his attention. This official explained that the labor organizations concerned, backed by the refusal of the United States supreme court to afford relief to President Ryan, of the structural ironworkers and other leaders who were convicted of complicity in dynamiting the Los Angeles Times building have agreed to demand the pardon of Ryan and the rest. The threat of a strike in the event of a war with Mexico is declared to be part of their campaign.

DESTROYERS ORDERED TO SEA FROM PENSACOLA

Pensacola, Fla., April 20.—Orders were received early to-day directing the flotilla of 20 torpedo boat destroyers here to put to sea this afternoon, meeting Rear-Admiral Badger's fleet in the gulf and accompanying it to Tampico. Officers said the destroyers, with two tenders were ready to start. Rear-Admiral Badger's ships will be at Tampico, early Wednesday, according to latest calculations.

FOX FARM PLANNED.

Ottawa, April 20.—The Canada Gazette contains notice of the incorporation of H. Moss & Co., Ltd., Winnipeg, with a capital of \$500,000. The company proposes to engage in a general ranching business for the breeding and rearing of foxes and other fur-bearing animals in captivity.

HUERTA DECLINES TO APOLOGIZE

MEXICO'S PROPOSAL COURTESY EXCHANGE

Gun for Gun Salute Abandoned
by Mexico and Protocol
Offered

Wanted Duplication of Mexi-
can Salute to Flag From
American Gunboat

Mexico City, April 20.—Portillo y Rojas, minister of foreign affairs, in announcing that it would be impossible to agree to the demand of the United States that the flag of that country be unconditionally saluted, sent to the United States yesterday the following protocol, which the Washington administration refused to sign.

"With a view of putting an end to the lamentable incident which occurred on the 9th inst. at Fort Tampico caused by the detention of nine men and one American officer, considering that such marines were immediately put at liberty by General Zaragoza, commander of Fort Tampico, and that said officer presented an apology to Rear-Admiral Mayo, commander of the American squadron in those waters; that afterwards when the president of the republic of Mexico became advised of the facts he expressed regret through the office of foreign relations for the incident, and ordered that a full investigation be made to the end that the guilty might be punished if any be found guilty, and finally that the action in question was due to the zealousness of a subaltern, which might be regarded as excusable if it is taken into consideration that the marines when detained had gone ashore in uniform without permission of the military authorities, the port being at the moment not only in a state of war, but under attack by the rebels, the charges d'affaires of the United States and the minister of foreign relations of Mexico, acting in their official capacity, agree as follows:

"First.—That the Mexican government, inspired by a desire of showing the goodwill it feels toward the people of the United States, and counting in the same manner wherein the United States has done in similar cases, binds itself that the American flag be saluted at Tampico by twenty-one guns from the Mexican shore batteries or a Mexican warship in those waters.

"Second.—That the cannon referred to in the preceding article shall be fired at the moment when the American flag shall be hoisted to a mast-head on the Mexican shore.

"Third.—That the government of the United States bind itself to salute the Mexican flag immediately following the salute by the Mexicans to the American flag with 21 guns of the man-of-war Dolphin or any other battleship at anchor in those waters.

"Fourth.—The guns to which the preceding article refers shall be fired at the moment when the Mexican flag shall be hoisted to the top of a mast of the aforesaid man of war, or of any other warship in those waters, and to this end both contracting parties attach their signatures."

This formal reply of the Mexican government to the demands of the United States was forwarded to Nelson O'Shaughnessy, the American chargé d'affaires at exactly 5 o'clock last evening at the foreign office. The charge, however, had been made aware previously of the nature of the document.

Mr. O'Shaughnessy had seen Senator Portillo y Rojas late in the afternoon in the suburb of Coyacan, where he had gone to dine with friends.

Provisional President Huerta displayed comparative indifference to the crisis, and passed several hours last evening listening to the military band playing in Chapultepec park.

Several hundred American residents spent the evening at the American club, where a dinner and entertainment were given.

Mexico City, April 20.—The newspapers of the federal capital to-day restricted themselves to brief comment on the statement given out by the foreign minister, devoting themselves chiefly to expressions of approval of the attitude taken by the Mexican government.

El Imparcial declared that General Huerta had given "high proof of his discretion and loyalty," and concluded: "A people, like a man, should prefer death to dishonor."

El Pais said: "The Tampico incident as a reason for war is infamous, and a basis for the assertion of right is ridiculous. In the solemn moments, serenity is the only thing that can save us, but should the time come to show ourselves patriots it is indispensable to unite in facing death and sacrifice with the valor of justice."

DIES FROM POISON.

Winnipeg, April 20.—After attempting to get his young bride of two months to join him in a suicide pact, Ernest A. Blowers, 28 years old, a Jeweller, swallowed potassium cyanide crystals yesterday and died instantly.

FLAT REFUSAL SENT TO WASHINGTON YESTERDAY

Joint Session of Congress Asked for Author- ity to Uphold Honor and Dignity of Nation—Bill to Appropriate \$50,000,000 Introduced for Military Purposes

Washington, April 20.—General Victoriano Huerta flatly refused last night to accede to the unconditional demand of the United States that he salute the American flag. Congress will be asked by President Wilson for authority to use armed force to uphold the honor and dignity of the nation.

The president to-day revealed that foreign diplomats at Mexico City had been using their good offices with Huerta in an effort to induce him to accede, but that no representations had been made to this government in any way by other nations.

Expropriation Bill Introduced.

After conferences with White House officials, congress leaders agreed on a joint session of both houses at 3 p. m. to-day and the foreign affairs committee began work on a resolution.

A bill to appropriate \$50,000,000 to be expended by the president, was introduced by Senator Chamberlain, chairman of the military affairs committee, to which the bill was referred.

The bill is identical to the bill passed before the war with Spain.

Message to Congress Asks for Armed Force to Preserve Dignity of America

Object is to Restore Peace to
Distracted People of
Mexico

Washington, D. C., April 20.—At 3 p. m. sharp President Wilson delivered his message to congress, asking for the approval to use the armed forces of the United States, in such ways and to such extent as may be necessary to obtain from General Huerta and his adherents the fullest recognition of the rights and dignity of the United States. President Wilson said:

"Gentlemen of the congress: "It is my duty to call your attention to a situation which has arisen in our dealings with General Victoriano Huerta at Mexico City, which calls for action, and to ask your advice and co-operation in acting on it. On the 9th of April a paymaster of the U. S. S. Dolphin landed at the Turbide bridge landing at Tampico with a whaleboat and boat's crew to take off certain supplies needed by his ship, and while engaged in loading the boat, was arrested by an officer and squad of men of the army of General Huerta. Neither the paymaster nor any one of the boat crew was armed. Two of the men were in the boat when the arrest took place, and were obliged to leave it and submit to be taken into custody, notwithstanding the fact that the boat carried, both at her bow and at her stern, the flag of the United States. The officer who made the arrest was proceeding up one of the streets of the town with his prisoners when met by an officer of higher authority, who ordered him to return to the landing and await orders; and within an hour and a half from the time of the arrest, orders were received from the commander of the Huertista forces at Tampico for the release of the paymaster and his men. The release was followed by apologies from the commander and later by an expression of regret from General Huerta, himself. General Huerta urged that martial law obtained at the time at Tampico, that orders had been issued that no one should be allowed to land at the Turbide bridge, and that our sailors had no right to land there. Our naval commanders at the port had not been notified of any such prohibition, and, even if they had been, the only justifiable course open to the local authorities would have been to request the paymaster and his crew to withdraw, and to lodge a protest with the commanding officer of the fleet. Admiral Mayo regarded the arrest as so serious an affront that he was not satisfied with the apologies offered, but demanded that the flag of the United States be saluted with special ceremony.

"The incident cannot be regarded as a trivial one, especially as two of the men arrested were taken from the boat itself—that is to say, from the territory of the United States, but had it stood by itself, it might have been attributed to the ignorance or arrogance of a single officer. Unfortunately, it was not an isolated case. A series of incidents have recently occurred which cannot but create the impression that the representatives of General Huerta were willing to go out of their way to show disregard for the dignity and rights of this government and felt perfectly safe in doing what they pleased, making free to show in many ways their irritation and contempt for the United States."

"Senator Stokes spoke in a similar strain. During the demonstration shots were fired and the student body paraded the streets in military fashion. "It will not be a trail of glory—it will be a trail of woe," he said.

President Hadley said: "If it is true that Huerta has refused to salute the flag and war should follow, this is the most serious moment for all of the United States."

Senator Stokes spoke in a similar strain. During the demonstration shots were fired and the student body paraded the streets in military fashion.

ADMIRAL DEWEY

Washington, D. C., April 20.—The joint army and navy board, headed by Admiral Dewey, to-day held its first session in many months. It discussed plans for co-operation of the army and navy in case it became necessary to adopt measures in Mexico. Major-General Wood, chief of staff, and Major-General Witherspoon, assistant chief, attended the meeting.

YALE STUDENTS CHEER WHEN HUERTA DECLINES

Ex-President Taft Says War Would
Be Trail of Woe for
Nation.

New Haven, Conn., April 19.—Two thousand Yale students paraded the campus to-night, cheering the news of Huerta's refusal to salute the flag. Hailed by an impromptu band and singing patriotic songs, the student throng surrounded former President Taft, President Hadley and Senator Stokes. Students charged up the hill to Prof. Taft's residence, and after repeatedly cheering, Mr. Taft came to the door. He said he hoped sincerely the calamity of war would be averted. "It will not be a trail of glory—it will be a trail of woe," he said.

President Hadley said: "If it is true that Huerta has refused to salute the flag and war should follow, this is the most serious moment for all of the United States."

Senator Stokes spoke in a similar strain. During the demonstration shots were fired and the student body paraded the streets in military fashion.

FRANCE IS OBSERVING

Paris, April 20.—The attitude of the French government in connection with President Wilson's policy toward Mexico is one of calm observation, according to the view expressed at the foreign office to-day. A disposition exists here to remain detached from events in Mexico unless incidents should arise directly concerning France.

PATIENCE IS VIRTUE MOTTO OF PRESIDENT

Under No Circumstances Will
United States Fight Mexi-
can People, He Says

Acts of Reprisal as Planned
Are Called "Measures
Short of War"

Washington, D. C., April 20.—President Wilson told Washington newspaper correspondents today not to get the impression that the United States was going to have war with Mexico. He pointed out that under no circumstances would the United States fight the Mexican people; that it was their friend.

Mr. Wilson said he was going to congress to tell of a special situation and to ask approval of plans to meet a special situation. He declared the issue was only one between the United States and a man who calls himself president of Mexico, but whom the United States had not recognized as entitled to that right.

The president said the intention of the United States was to help the people of Mexico and that he had a feeling of uneasiness when he found the newspapers fired with enthusiasm for war.

Mr. Wilson declared he did not want war, but justice, and that he did not consider such acts of reprisal as are planned, acts of war, but measures short of war, sustained by the Greytown precedent for one.

The president said that in reality he was going to congress on an occasion for which, strictly speaking, it was not necessary to ask authority, but it was his desire to have full co-operation and thought and purpose of congress.

Mr. Wilson said that the executive could take steps which would fall short of a declaration of war. The president emphasized that he had not lost his patience with Mexico, for to lose patience seemed to him an act of weakness on the part of the person strong enough to do as he ought, but that he felt such incidents as recent ones might go from bad to worse and eventually bring about a state of conflict. The president added that he thought it was wise in the interests of peace to cut off these repeated offences at an early stage.

UNITED STATES SADDLED WITH NEST OF HORNETS

London Papers Have Sympathy for
Americans in Their Quarrel
With Huerta.

London, April 20.—Mexico overshadowed all other affairs in public interest here to-day.

The Westminster Gazette, leading government organ, in expressing the view that nothing can now avert war, "or if not war," what the late William E. Gladstone would have called military operations, says: "One cannot pretend to be surprised that this should be the end of the refusal of the United States to recognize General Huerta. There are a good many other nations which in other circumstances might have tackled the hornets' nest, but this case is one in which the Monroe Doctrine saddles the United States with heavy obligations, from which there is no escape."

The Pall Mall Gazette, an opposition paper, says: "Our sympathy with the Americans does not blind us to the perils of the course which they seem about to commit themselves."

The Globe says: On the United States will be laid the extremely difficult duty of protecting both its own citizens and foreigners exposed to Mexican barbarities. In all probability an eventual reorganization of the whole country of Mexico would be necessary."

WOOD WOULD COMMAND

Washington, D. C., April 20.—Secretary Garrison announced to-day that in the event of hostilities in Mexico, Major-General Leonard Wood, chief of staff of the army, would command the American forces.

CZAR AND KAISER TO FRATERNIZE IN JUNE

Writers Say It Is Return Courtesy or Else Means Royal Wedding

Berlin, April 20.—There is every indication that the recent alarming war scare so diligently and "gallantly" prosecuted by the German and Russian newspapers is now at an end, and, with characteristic fickleness, the same newspapers are publishing quite a lot of fulsome things about the impending meeting of the czar and the kaiser.

A meeting between the two monarchs has been decided upon, and possibly the chosen rendezvous will be Revel or one of the Baltic ports. It is expected that the important event will take place in June after the Russian court has returned from its sojourn on the Crimea, or in August after the French president has paid his visit to St. Petersburg.

Certain German writers, evidently still sticking to the old spirit of antagonism to Russia, proclaim the kaiser's visit as merely an act of courtesy in return for the czar's Berlin visit on the occasion of the marriage of the kaiser's only daughter to Prince Ernest of Cumberland, now Duke of Brunswick. There is some talk, too, of the possibility of the visit coinciding with the rumored wedding between one of the czar's daughters and Prince Charles of Roumania.

Alarmist reports whispered around this week concerning the health of the son and heir of the Duke of Brunswick, happily were unfounded.

Your Son's Inheritance

How are you, as a father, to provide for your son's future without, on the one hand, bequeathing him too large a sum to be paid to him at twenty-one, or, on the other hand, stinting him during his formative years?

In making your will you should place your estate in the hands of a trained, responsible and capable trustee. Provide that the trustee shall hold and manage the estate until your son reaches an age when character is formed and experience developed. Give to that trustee the same power that you yourself would exercise as a parent. Thus will your son's inheritance be a blessing rather than a handicap.

Let us discuss this matter more fully in a personal interview.

DRIVING RAILS INTO PEACE RIVER CENTRE

Railroad Contractor Tells How New Roads Are Entering Rich Territory

Winnipeg, April 20.—In the course of an interview, J. D. McArthur, the well-known railroad contractor, stated that steel had been laid from Edmonton to Lesser Slave lake, a distance of 170 miles, and that the valley of the Peace river country would be reached this summer.

Mr. McArthur gave out for the first time details of the Edmonton, Dunvegan and British Columbia railway that is opening up this last great west, an inland empire of thousands of square miles in extent. He also announced that work would commence this spring on the Great Waterways railway to Fort Murray, northwest to Edmonton, a distance of 350 miles. This line to Dunvegan and British Columbia will extend 400 miles into the very heart of the Peace river district, where the settlers are reported to be pouring in.

"We have completed the first 170 miles of the line to Lesser Slave lake," said Mr. McArthur. "We will reach the Smoky river, one of the lower tributaries of the Peace river, this fall, and the road will be completed to the British Columbia boundary line in the fall of 1915."

"We are already operating under construction the division of 131 miles to the new town of Smith at the crossing of the Athabasca river. The Dominion government has had the country surveyed, and there are thousands of homesteads available between Smith and the British Columbia line, and even beyond that point."

"We are going to commence work on the Great Waterways railway this spring, and we will put 1,500 men to work on that line just as soon as conditions permit."

The two new railway lines that Mr. McArthur is constructing into the northern Alberta country will tap 150,000 square miles of virgin territory, through which run several broad navigable streams that will give access to the country for settlement. There are at least 1,400 homesteads for entry. The country is rich in minerals, gold, copper, gypsum and petroleum being found, and there is coal everywhere. Some of the coalfields are said to be thirty miles square with seams six to fourteen feet in thickness.

LATEST FORECAST IS THOUGHT NOT LIKELY

London Newspapers Revive Appointment to High Commissionership Mentioning Perley.

London, April 20.—At the time of Lord Strathcona's death every newspaper here announced a different person as his successor, such announcements usually being accompanied with the customary assurance that such information was upon undoubted reliability. There lately has been a lull in this indiscriminate misting of names of probable and hopelessly impossible candidates until yesterday, when several papers gave out definitely that Hon. George H. Perley, minister without portfolio in the Canadian government, was to become high commissioner.

This statement, which did not profess to emanate from Canada, evidently proceeded from a single source. The Liverpool Courier's London correspondent embarks on spoiling its rival's "scoop" to-day by pointing out that Mr. Perley is an American born, and under the existing laws would revert to his original citizenship if he came to London. "The only way the extraordinary position could be overcome," says the Courier, "would be by the new high commissioner taking out naturalization papers, which is not a very likely procedure."

FREIGHT HIT BY TRAIN WHEN RUNNING SLOWLY

No One Hurt in Collision South of Calgary; Repairs Quickly Effected.

Edmonton, April 20.—The Calgary night express leaving here at 11:30 Saturday night, had a head-on collision fifteen miles south of the city, with a freight train. No one was injured, but the freight was badly smashed up, a number of the cars being thrown into the ditch and both engines being disabled. The express was running slowly at the time of the accident and was almost stopped when the freight crashed into it, running at the rate of fifteen miles an hour. The engineers and crews of both trains jumped and escaped with nothing worse than some bruises. The passengers were transferred to trains brought from the north and south, and the track, several hundred feet of which was torn up, has been replaced.

SASKATCHEWAN ISSUE FOR RURAL DEBENTURES

Regina, Sask., April 20.—During the week ending Saturday, April 18, the Saskatchewan local government board authorized the issue of debentures by school districts, rural telephone companies and municipalities, aggregating \$80,000. Ten school districts were authorized to borrow \$25,150, and a smaller number of telephone companies \$62,000.

PARK FOR COQUITLAM.

Ottawa, April 20.—An order-in-council has been passed making a free grant of land to the city of Port Coquitlam, B. C., for park purposes. The park, which consists of thirty-nine acres, is subdivision ten, section 12, township 33 of the coast meridian.

UNIONISTS DISPLAY CURIOUS STILLNESS

Downing Street Ignores Allegations Made in Regard to Ulster Question

London, April 20.—Newspapers are filled with the programme of the king's visit to Paris, and with editorials based thereon. The Ulster political incident is consequently crowded out of the limelight, although the Daily Express declares the revelations have sent shudders of horror through the country.

It is notable that the leading Unionist journals, following a suggestion made by the Weekly Spectator, sing small on this matter, displaying, as the Daily News says, "a curious stillness in regard to those sensational revelations."

One of the most remarkable points about these revelations is that J. L. Garvin, the chief leader of the Ulster supporters in the press, does not even make mention of them in the Sunday Observer.

Ministers in Downing street decline to issue any repudiation, preferring to ignore the allegations altogether. The Unionists, however, propose to press the matter in the House of Commons, but it is generally anticipated the government will persist in refusing an enquiry.

Sir Edward Carson does not doubt that "the government will ride off on the false issue of the right of the government to take such steps as might be thought necessary in view of Ulster's preparations to resist the Home Rule bill." He doubts, however, whether a denial of the stated facts will be forthcoming. The suggestion is half-heartedly made that the opposition should force a motion of censure in the event of an inquiry being refused; but Bonar Law is not likely to pursue that course until after a conference with Sir Edward Carson. The Daily Mail, however, strongly urges the necessity for a judicial enquiry.

John Ward, the Labor member, who leaped into prominence during the debates in the Commons upon the army issue, has tabled a retaliatory question drawing attention to the prominence of Lord Shaftesbury in the Ulster volunteer organization, and asking what are the government's intentions regarding the appointment of Lord Shaftesbury as an official of the court.

The annual debate upon the army bill this week will afford an opportunity to discuss the latest revelations and some exciting speeches may be looked for.

SEATTLE WILL TRY AND GET CONVENTION WEST

Real Estate Association Will Strive at Pittsburgh for Meeting of 1915.

Seattle, April 20.—To land the 1915 convention of the National association of Real Estate exchangers, members of the Seattle Real Estate association will put up a never-ceasing fight. President H. A. Schroeder, of the local association, and President Samuel Collier, of the state association, urge that dealers rake together their spare change, and make the trip to Pittsburgh with drums beating and colors flying. "Bring home the next convention," will be general orders. The Seattle Real Estate association expects to land the meeting. The officers and members of the association feel confident they will be able to procure the convention next year. They are aware the visitors will be good advertising agents for the northwest and for Seattle after having been entertained by the association.

WILL RAISE SALARY IF HANNA TAKES POSITION

Ontario Provincial Secretary Probably Will Head Workmen's Compensation Board.

Toronto, Ont., April 20.—In well-informed political circles it is stated that Hon. W. J. Hanna, provincial secretary, has been asked to accept the chairmanship of the workmen's compensation commission, and this, it is stated, he will accept when the plans for the organization are complete. In order to make the chairmanship sufficiently tempting to Hon. W. J. Hanna there is a move on foot to increase the salary from \$10,000 to \$12,000 a year. This may not be done immediately, but the increase will follow if Hon. W. J. Hanna accepts.

One associate will represent the manufacturers at \$8,500, and the other the labor element at \$7,500.

AEROPLANES COLLIDE MEN BURNED TO DEATH

Crash in Mid-Air Followed by Burst of Flame and Fall to Earth.

Buc, France, April 20.—The aviator, Francois de Roy, and Marcel Dablin, who was making a flight with him, were burned to death as a result of a collision in the air yesterday. Thousands of spectators witnessed the accident. De Roy's machine and another, piloted by the aviator Bedault, with a passenger, Pelladeau, came together with a crash in mid-air. Evidently the gasoline tanks exploded, for both machines burst into flames and fell to the ground. Bedault and Pelladeau, although badly injured, managed to extricate themselves from the blazing wreckage, but De Roy and Dablin were pinned down, and the intense heat prevented rescuers from approaching.

MANIAC KILLS TWO BOYS AND COMMITS SUICIDE

Newcastle, N. B., April 20.—A double murder and suicide occurred at Protonville, nine miles from here Saturday night. Park Sobey, 23 years old, had been in Newcastle drinking, and rode home with Alfred Mullin. While Mullin was stabling the team, Sobey seized an axe, and hacked to pieces two little boys, sons of Mullin, aged 7 and 5. He then threatened Mrs. Mullin and two smaller children with a rifle. Mrs. Mullin begged for her life, and the maniac, returning to the barn, struck at Mullin, who, although wounded in the shoulder, grappled with his assailant until he fell unconscious. Sobey was later found in his cabin dead, with a bullet wound through his head.

DOUKHOBOR LEADERS GO TO MEDICINE HAT

Medicine Hat, Alta., April 20.—Peter Verigin, president, and J. W. Sherblin, manager, of the Doukhobors community in Canada, arrived here yesterday. It is expected that the Southern Alberta Land company will let the contract to-morrow for considerable work at the Little Bow reserves, and the Doukhobors officials will look into prospects for getting work there for some of the Doukhobors at Brilliant, B. C., and for using horses belonging to the Doukhobor colony in Saskatchewan.

MURDER IS COMMITTED IN STATE OF FRENZY

Ottawa, April 20.—Wielding an axe as the instrument of death, Mrs. Placide Massie, aged 45, wife of a plasterer residing at Adelaide and Fred streets, Hull, Saturday, murdered her 19-year-old daughter, Marie, the oldest of a family of seven children. The woman has been acting strangely for about a week, and it is thought she committed the crime in an insane frenzy. An inquest was opened Saturday night, and adjourned until Tuesday evening. In the meantime Mrs. Massie will be examined as to her sanity.

LONDON RIFLES MAKE RECORD FOR WALKING

London, April 20.—Sixty officers and men of the London Rifle Brigade, a territorial regiment, established a world's record by marching from London to Brighton, fifty-two and a half miles, in 14 hours, 23 minutes. The previous best record was that made by the Foreign Legion, which marched fifty miles in 15½ hours.

EHRMANN KILLED.

Paris, April 19.—The aviator, Ehrmann, was killed to-day by a fall from his aeroplane.

Phoenix Rock Beer, \$1.50 per dozen quarts.

Make Us Prove It

We dare not exaggerate to you. We are dependent upon your patronage. To get it we must have your trust and confidence. We make the following statements with a full understanding of what they mean to us. You are safe when you believe in these statements.

For the Bowels

If you only knew as much as we and those who have used them know about Rexall Orderlies, you would be as enthusiastic about recommending them as we are. They taste just like candy. They act so easily and so pleasantly that the taking of them is a pleasure.

Even children like Rexall Orderlies, and you know that if a medicine appeals to a child, it will appeal to grown-ups.

Rexall Orderlies

help chase gloom, dispel blues and make you feel happy by their stimulating, cleansing and strengthening effect upon the bowels. — They act to free the system — and keep it free — from the distress and ill feeling that naturally results from irregular and inactive bowels.

Rexall Orderlies do this quietly, without griping or causing nausea, purging or excessive looseness. They act to overcome and remove the cause.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our stores.

D. E. Campbell.

The Rexall Store

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a Rexall Store for nearly every ordinary human ailment — especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores

BRITAIN TRIES OUT GERMAN AEROPLANE

Admiralty Has Designers Working on Battleship for Air Station at Sea

London, April 20.—It is typical of the attention which the European powers are giving to the question of aerial supremacy that the British army council has last week been conducting a series of tests of an entirely German aeroplane. It matters little where the machine comes from or the nationality of the inventor so long as there is no lagging behind in the race for the conquest of the air.

The machine in question was built at the Albatross aeroplane works at Johannisthal, near Berlin, and is fitted with a 100 horse-power engine also of German manufacture. Herr Wiener, director of the manufacturing company; Herr Heinkel, constructor, and Herr Thielen, a German aviator, who manipulated the machine, all came specially for the tests.

It is, of course, impossible to get any definite statement of the results, but expert watchers are agreed that the flights gave full satisfaction. It has even been stated that the military authorities contemplate placing a large order with the German firm and we have had the inevitable storm of criticism of an action so "unpatriotic."

It is hardly likely that the government will risk wholesale condemnation by placing any considerable order with the German firm unless, of course, the Albatross has some extraordinary advantage not to be found in any British-made machine.

This development as called for renewed attention to the patent waterplane with folding wings invented by Mr. Horace Short, of the firm of Short Brothers. It is pointed out, with full satisfaction, that this wonderful plane is likely to revolutionize the future utility of the waterplane.

The admiralty have put their designers to work to prepare plans for the building of a battleship which will serve as its own air station and in anticipation of the possibility of such a vessel being required in the near future, the naval experts are putting the Short waterplane to the most exhaustive tests. Those through which the machine has already gone have been sufficient to warrant the optimism of the inventors.

It has been shown that the wings when folded are only ten feet across as against the full area of the sea-level in the rigid plane. It will be found possible to carry just as many of these machines on board a battleship as the developments and science of naval warfare may prove desirable.

CANADIAN PACIFIC TO TRADE IN PHILIPPINES

Empress of Russia to Call at Manila Cutting Time of Service to Seventeen Days.

Montreal, April 20.—Considerable interest has been created in shipping circles by the announcement that the C. P. R. will enter the Philippine trade on June 15, when the steamer Empress of Russia will make Manila a port of call. The fastest schedule hitherto has been twenty-eight days, but the C. P. R. with its fast sailings, will cut this down to seventeen days.

The new schedule will bring considerable tourist trade to Manila as the Canadian road carries a large percentage of round-the-world travellers from Europe on its Empress boats. This service has been inaugurated at the request of business men and commercial interests in the United States and the Philippines and undoubtedly will bring Canada into touch with the available new market.

LIBERALS IN SWEDEN LOSING MANY SEATS

National Defence Was Dominant Issue of Campaign Because of Russian Aggression.

Stockholm, April 20.—Returns from the election which began throughout Sweden on March 27, and continued to April 7, indicate the complete defeat of the Liberals, whose membership in the new Swedish parliament is reduced from 101 to about 74. It is estimated that the Conservatives have elected 81 members as compared with 65 in the previous parliament, and the Socialists 7 as compared with 64.

The dominant issue of the campaign was the stronger national defence, aroused by fears of Russian aggression.

MOSCOW TO ODESSA AIR COMPETITION IN AUGUST

Odesa, April 20.—Plans for one of the longest and most difficult automobile races in the world have been completed and the president of the Imperial Automobile club in St. Petersburg has notified the prefect here that Odesa has been designated as the finishing point.

The race, which is an international contest, will cover 2,000 miles, starting from Moscow and running by way of Tula, Orel, Kursk, Vladikavkas, Yalta, Simferopol and Kherson to Odesa. It will be run in August.

The contest is open to all nations and will include all types of cars. The Czar is taking a lively interest in the coming competition.

STEAMER KITE SAFE.

St. John's, Nfld., April 0.—The sealing steamer Kite, from which no tidings had been received for more than a month, is now reported safe. The Kite has about seventy men on board.

PRINCE RUPERT BOOMS WITH RAILROAD ENTRY

Political Interference in Militia and Bossism in Civic Affairs Deplored

(By Special Staff Correspondent.) Prince Rupert, April 16.—The Pacific terminal of the Grand Trunk Pacific railway looks a very desirable spot just now, when the great line which owes its origin to the genius of Sir Wilfrid Laurier and the Liberal party is within a few weeks of completion.

People are beginning to flock into the city in prospect of the impetus which will be given to all lines of endeavor with the opening of the line for through traffic next summer. Accommodation is becoming taxed to the limit.

The excavation for the new G. T. P. hotel adjoining the station site and the docks is being hurried on, and work will soon commence on a hostelry that is to rival the famous Chateau Laurier of the national capital. To replace the premier, the pioneer hotel whose red frame building is a prominent mark on the harbor front, a four-story brick hotel has been erected. The proprietor of the Savoy, formerly the leader of the opposition in the Yukon, will build a two-hundred-room house when the street grades have been adopted.

The station for the G. T. P. will go up at the same time that work is progressing on the hotel. The dry dock is being built a short distance north. A new city hall is just about ready for occupation. Excavation is going on for the half-million dollar post-office, and the provincial government buildings, which will cost well over a quarter of a million dollars, is soon to be started.

The political virus has been eating into the public spirit, unfortunately. In Conservative circles here the need of an awakened public conscience, dwelt on by the Liberal leader in his address in the opera house, is very manifest. For the first time in the history of the city politics were imported into civic affairs at the last election. During 1913 the city had a good mayor in the person of T. D. Pattullo, and no one questions the honesty and efficiency of municipal government, however, from a Tory point of view, of being an unbending Liberal. His politics never colored his administration of civic business, but in the political field he is known as one of the leaders of Liberalism, and his trenchant tongue is justly feared by the Conservative bosses. It, therefore, was decided by the directors of the machine that he must be opposed, and a virulent campaign was waged against him, which succeeded by a small margin.

Since then Beaver club methods have been adopted in regard to civic employment, from a pick-and-shovel job up. All must pay \$1 and join the association. When Mr. Pattullo referred to this at the Terrace meeting he was contradicted by a couple of road forces in the audience, who asserted that there were Liberals and Socialists as well as Conservatives employed. This is one of the half-truths, that are worse than the outright lie, and it affords a commentary on the great increase which has lately taken place in a formerly decaying Conservative association.

At the last meeting of the association a well-known Conservative hotelman, whose independence is as well-known, remarked that he must have got into the wrong place, on every hand, he said, he saw men who had been posing as Socialists or Liberals or independent Conservatives, and there were even Americans who were a long way short of being able to secure naturalization. These men have had to join the association as a necessary preliminary to getting a chance to earn their living in the public service. There is a strong element of independence in the party, however, and this has made itself felt in provincial and civic affairs with increasing effect. Its members deplore the condition into which their party has fallen, and while their political principles remain unchanged they desire to see it be the interests of the province that the McBride government must go.

Politics has invaded the militia. Prince Rupert has been proud, almost since its birth, of its Earl Grey Rifles. Lacking an armory and all the conveniences which make militia service popular in the larger cities, the Earl Grey Rifles attained a high state of proficiency through the zeal and devotion of officers and men. Captain Fred Stork, the city's first mayor, and Lieut. McBride have spent time and money on the local militia unit, and had the satisfaction of seeing it advance.

Unfortunately for the Earl Grey Rifles its officers were Liberals, men of prominence in their party, but strongly opposed to any considerations of party politics entering into militia matters or civic business. With the progress of the city and the rifles it was apparent that the time was near at hand when the latter could be enlarged to at least a four-company regiment. This would naturally have involved the calling of Captain Stork to its command, and the promotion of Lieut. McBride to a majority. Jealousy.

A Revelation in Dress Values

They're excellent values at \$45.00, yes, and even \$50.00. "Campbell's" prices are but—

\$30, \$32.50 and \$35

"A revelation in dress values" just about correctly expresses the importance of this dress item. Every model shows the co-operation of artists and designers to produce effects wholly charming and in conformity with Queen Fashion's latest mandates.

Any shred of prejudice against the ready-to-wear frock will be summarily swept away as the discriminating woman notes their distinctiveness and individuality of design, their line perfection and the careful attention to detail that marks their finishing.

There's a wealth of variety, too—a chic and becoming dress for every in and out-door occasion. Materials of crepe de chine, fancy crepe, striped crepe, taffetas, poplins, satins, etc., and as for colors and trappings, you must drop in to see them; we couldn't begin to describe them here.

Late Spring and Early Summer Coats

—as shown at "Campbell's" represent an interpretation of the prevailing modes, absolutely correct in fabric, line, color and embellishment.

Our present display is so comprehensive that any taste may be gratified. Every garment—every style—is thoroughly expressive of a new idea well applied. The reasonableness of our charges will not be fully appreciated before women note how much VALUE—how much style and quality—we offer at such figures as

\$9.00 to \$15.00, \$15.00 to \$22.50, Then Up to \$75.00

You know the favored materials, the plain and novelty styles, the new shades—they're all here; nothing is missing at "Campbell's."

For Years We Have Specialized on Suits at \$20, \$22.50, \$25

We have given you qualities and values so far superior to ordinary ready-to-wear that we could scarcely surpass them. It remains, then, for us to outdistance all previous attainments in the marvelous variety of exclusive styles we offer this season at the above prices. Come to-morrow, see the black and white checks, fine serges, dressy suits in novelty weaves, plain and fancy ratines, Bedford cords, reps. Coats, of course, are silk and satin lined. Other imported suit models, though priced up to as high as \$125, are just as good values as the above.

GLORIOUS NEW BLOUSES

Especially attractive is our Blouse Department just now. In fact the general comment is—"Campbell's never had such a lovely showing before." New and charming styles suitable to the demands of all the occasions when the dainty separate waist is worn—and this is to be a season of waists.

Blouses of Crepe de Chine, French Crepe, Nylon and Lacos in pleasing tones of tan, green, purple, gold, pale blue, grey, white, etc.

In the new style features are noticed the Medici frill, Raglan sleeves, long and three-quarter length sleeves.

IRISH HAND-EMBROIDERED WHITE VOILE BLOUSES, with the new shoulder yoke and long sleeves. Quite an assortment, too, of other Voile. Waists with the Raglan sleeves and drop shoulders, very tastefully finished with lace trills and fancy collars; a number show the new vest effect.

It costs no more to secure the advantages of "Campbell's" style showing than to remain satisfied with ordinary productions.

Campbell's

1008-10 GOVERNMENT STREET—PHONE 181

Fancy Silk Coats and Suits for garden parties, bridge parties, formal occasions. It's not a bit too early to buy now.

Home Furniture At Low Prices

We offer a splendid selection of Furniture, Carpets, Linoleum suitable for the home and office, at very low prices. Our aim is to offer goods of high quality only at moderate prices, and we challenge comparison of values. SMITH & CHAMPION
"THE BETTER VALUE STORE"
1420 DOUGLAS ST. NEAR CITY HALL

ous Conservatives could not view this with equanimity. They had never shown any desire to assist the company before, but suddenly they developed an intense interest in militia. Wires were pulled, the minister of militia was interested, and a month ago the Canadian Gazette contained a harmless-looking notice to the effect that the Earl Grey Rifles had been disbanded to permit of the formation of a four-company regiment. While Capt. Stork and Lieut. McBride naturally felt that they have been shamefully treated they are quite ready to help in making a larger unit a success, but so far there has not appeared the slightest disposition to take advantage of their patriotism and military experience. It is said they will be left on the reserve of officers in the full flush of their usefulness because of the invasion of the militia by Conservative politicians.

CAN INCLUDE CHINESE.

An Ottawa dispatch states that after a close scrutiny of the legal aspects of the question it has been decided that the government has the power to include Chinese in the recent order-in-council excluding artisans from British Columbia. This confirms the opinion expressed by the Times when the original order was passed last December. We were unable to see wherein the special act relating to Chinese deprived the government of the power to exclude Chinese as well as white people under the provisions of the general immigration act. We urged, however, that if such actually proved to be the case steps should be taken in the way of legislation in order that the difficulty could be overcome.

The dispatch which is published by our morning contemporary says that: "In view of the recent racial difficulties in British Columbia the government may avail itself of the interpretation." It ought to do so in any event. As a matter of fact, we have no doubt that the government knew all along that it had the power to exclude Chinese as well as white people, but its attitude of discrimination was dictated by considerations of revenue and the wishes of those "influential interests" to whom Mr. Barnard referred in discussing the subject here. Now that it is openly admitted that the government has power to include Chinese in the order-in-council, we shall expect to learn soon that the power is being exercised.

SHOULD NOT BE DELAYED.

The annual report of the board of trade, after reviewing the question of railway connection between Victoria and the mainland, says:

"These services, excellent as they are, will not meet the requirements of Vancouver Island, and the time appears to be now ripe to give greater attention to all-rail connection by Seymour Narrows. This was the original route planned for the Canadian Pacific railway, and its feasibility has never been questioned. The Dominion government has promised to make a further examination of the route, and it is to be hoped that this work will not be delayed in order that all the facts may be known to the department and to the public. The carrying out of this project is submitted as one upon which this board of trade can usefully congratulate its next great efforts."

With this there should be common agreement. It is two years since the board of trade and city council sent a deputation to Ottawa to discuss with the federal authorities the subject of all-rail connection between Vancouver Island and the mainland. They elicited a promise that a survey would be undertaken and a report obtained. Some months ago we were assured that the department was making preparations for the survey, and since then nothing has been heard on the matter. Even the appointment of an engineer to do the work has not been announced. Within a few days after the Georgian Bay canal project was discussed in the House of Commons a commission was appointed to report upon the feasibility of that enterprise, which will cost four times as much as the Seymour Narrows project.

There never will be all-rail connection between this island and the mainland unless we press constantly for it. We must bear in mind that certain interests in the east for selfish purposes will combat the scheme, and it will be necessary to show parliament in the most direct and emphatic way that Vancouver Island is a unit on the subject. That is why we have urged the island representatives to bring the matter up in the House of Commons; why we are trying to induce the Conservative press to abandon its lukewarm attitude and lend the weight of its influence in favor of this great work. If the proposal is to be kept in cold storage until the eve of an election the agitation for it will lose half its force.

PREFERS THE COMPANY.

Regarding the bridge across Selkirk Water the city solicitor has received a letter from the city's legal representative at Ottawa containing the following paragraph:

"I may say that I am rather under the impression that Mr. Barnard thinks that perhaps the city is asking that conditions should be imposed which would be too onerous for the company under existing circumstances. I feel, also, that the chief engineer is inclined to think in the same way about it."

The chief engineer above referred to thinks that in connection with this bridge, "aesthetics and sport should give way to the larger needs of the community," and therefore the company should be permitted to erect a pile trestle. Mr. Barnard apparently agrees with the novel dictum that the larger needs of the community cannot be met as fully by a steel structure as by an unsightly pile bridge. But the duty of the member for this city is to support the protest of the council, whose members happen to be the elected representatives of the citizens.

The railway company has requested and received from the legislature an extension of time of two years in which to complete the line to Patricia Bay, the first-class mail and passenger ferry and the line from Stevenson to Westminster Bridge. If it sets to work diligently this summer a steel bridge will be in place just as soon as these works are completed. If a pile trestle is necessary for the immediate construction of the steel bridge, no objection need be offered to it, as it is for the company to determine how it can best carry out its work, but under no other conditions should permission for a pile structure be granted.

The recommendation that five years be allowed the company to construct a steel bridge is contrary to the interests of this city. It is a negation of the assurances given the people of the strength of which they more than generously assisted the railway, and these assurances must be fulfilled to the letter. We know the influence of the Canadian Northern Railway company is powerful at Ottawa, but if Mr. Barnard is wise, he will uphold the contention of the city which elected him as its representative.

MEXICAN SITUATION.

Mexico is now in the world's limelight. Ulster, for the moment at any rate, drops into the shadow. General Huerta has refused to salute the United States colors except on terms proffered by himself, and to-day President Wilson obtained from Congress authority to take the steps necessary to enforce his country's demands. This means the blockade of Tampico and Vera Cruz, the two most important ports on the east coast. As far as Tampico is concerned, the American demonstration will not disturb very seriously the equanimity of the Mexican authorities, because it is invested by the rebels and before long would fall into their hands. Vera Cruz occupies a different position. It is the main outlet to the sea of the territory which so far is in the undisputed possession of the government. It is the key to the capital, some two hundred miles distant, with which it has direct connection by rail. Through it passes most of the exports of the country to the markets of the world, half of which, by the way, go to the United States. The blockade of Vera Cruz, if rigorously carried out and maintained, under ordinary circumstances should bring Huerta to his senses.

But the circumstances are not ordinary. Huerta has been losing in his conflict with the revolutionists for months. Half the country is now in possession of Carranza and Villa on the north, while a considerable area is dominated by the guerrilla Zapatas on the south. Huerta is not sure of the loyalty of his soldiers who, when the crucial moment arrives, are likely to emulate his treachery to Madero and give him a taste of the poison he held to the lips of the man he had sworn to defend. From Villa he would receive no mercy, for, apart from the rebellion itself, there is a mortal personal feud between them. United States intervention would afford him an opportunity of eliminating himself without loss of prestige. On the contrary, if his insolent defiance provoked forcible measures from Washington he would be hailed as one of the great patriots of his race. He seems to have shaped his course from the first with the ultimate object of forcing American intervention should the success of the constitutionalist become assured. Either he had that purpose in view or he believed the Washington administration was not supported by the American people in its attitude towards him. In that case he is about to undergo a radical disillusionment. The American people, now roused, will not be satisfied with a "pacific blockade." They will insist on travelling the whole route.

In itself the blockade of Tampico and Vera Cruz is not intervention in the Mexican revolution, but it is so in effect. It is, moreover, an act of war, though not politely described so. It may provoke reprisals on the part of the dictator whose primitive savagery may inspire the massacre of American citizens or it may achieve no other

purpose than to strengthen his Indian stubbornness. He is scarcely likely to receive any assistance from the revolutionists as long as the international dispute is confined to his own territory. No doubt Carranza and Villa would be quite satisfied to have their enemy eliminated by Washington, thereby saving them much trouble, expense and loss of life, provided they were confident that intervention would not involve permanent occupation on the Egyptian model. Yet the British occupation of Egypt was the best thing that ever befell that benighted country.

The world would heave a sigh of relief if the blockade of Tampico and Vera Cruz were the prelude to a spring cleaning in Mexico - by the United States. President Wilson's policy of non-intervention was based upon the loftiest principles and was justified as long as there was a prospect of the elimination of Huerta by somebody in Mexico believed to be capable of restoring law and order. He had hopes of Carranza, but nobody now imagines that the nominal constitutional leader ever would hold his seat in the saddle. It would be President Villa, who would establish a military dictatorship, Villa the lying, murderous bandit, who might be worse even than Huerta. Between Huerta and Villa there can be only one course to pursue, and that is to intervene, restore order and establish a government capable of administering the affairs of the country. The United States did it in Cuba and is doing it in the Philippines. It can be done in Mexico.

PRESIDENT WILSON'S TASKS.

President Wilson has gained golden opinions by his handling of the Panama canal tolls matter. That is the opinion, practically, of the whole world, although William Randolph Hearst has been carrying on a bitter campaign against the president, even accusing him of being a traitor to his country. The "college professor" has had several difficult problems to handle since the day he took possession of the White House. On the tolls issue his position is that the honor of the nation is involved in upholding the obvious interpretation of a treaty couched in terms which cannot be misunderstood. With calm determination he has insisted upon reform of the tariff, notwithstanding the opposition of all the special interests and the tremendous influences they brought to bear upon congress. It is doubtful if there is another man in the United States who could have accomplished as much within the compass of a single session of the house. Thus he has kept faith with the people of the United States, and he is determined that the people of the United States shall keep faith with Great Britain and other nations whose interests are involved in the navigation of the canal.

Now he has a weightier problem to deal with, one which will require very delicate handling, inasmuch as all the world will watch his dealings with Mexico. In the issue that has arisen the inherent human right of all to self-government is involved, and Mr. Wilson, if his acts appear to infringe upon that right, may expect criticism not only from his political enemies at home but even from those on the outside who have been shouting most vigorously for intervention. Whether the people of the unhappy "republic" have been unfortunate in the men who have aspired to positions of authority or whether they are temperamentally and mentally unfitted for the responsibilities and liabilities of self-rule it is difficult to say, but the events of the past few years certainly indicate that it would be well for the country if some power would step in, restore order and establish stable government.

The province of Prince Edward Island is enjoying greater prosperity than it has known for years. Its government reports a handsome surplus of revenue over expenditures for the past financial year, and is not asking Ottawa for any special favors at that. The reduction of the United States tariff has to some extent assisted in producing this result. The little de-

minion of New Zealand and the smallest province in this dominion have reason to be satisfied with President Wilson's fiscal policy. The city is that the government at Ottawa is so tied up with the protected interests in this country that all Canada cannot share in the benefits of the United States' new tariff.

The Ottawa Journal says Sir William Mackenzie occupied a seat in the Speaker's gallery of the House of Commons a few days ago. It also says there was a flicker of a smile upon the countenance of the great man once or twice during the course of the debate, but for the most part he gave impassive attention to it. Naturally, why should Sir William be perturbed or "bat an eyelid?" He knows what he is after and that he is going to get it. It is not Sir William, but the Dominion as a whole, and this province in particular, that should be anxious about the outcome of the Canadian Northern's operations.

The following advertisement appeared in a recent issue of the London Times: "A good cook is offered a magnificent view from kitchen window of main thoroughfare with constant arrests, small accidents, ambulance calls, and other interesting incidents at all hours of day and evening. Address Z. U. 386, The Times Office, E.C." A cook so advantageously stationed undoubtedly would give character and individuality to the culinary product. There is nothing in the world so sad as a bored cook, unless it is a bored diner.

An overwhelming majority of the leading newspapers of the United States support President Wilson's stand on the Panama canal tolls question. According to the New York World, out of the 135 prominent dailies which reach its exchange table, 107 are with the president and 28 against him. The Hearst yellows of course are numbered among the minority, but this is a strong argument in Mr. Wilson's favor.

Sir Edward Carson has a well-grounded grievance against Huerta. The Mexican dictator is crowding him out of the newspaper headlines. Though limitation is the sincerest form of flattery, Sir Edward cannot feel flattered because Huerta imitates him at high-flown defiance.

On Saturday Clover Point range could not accommodate nearly all the shooters out for practice, although the season is in its infancy. The riflemen were promised a new range, and it ought to have been provided ere now. The Minister of Militia has said that rifle shooting is an accomplishment that should be encouraged, because it is the sure defence of a nation. Why is it not offered the encouragement it deserves?

A New Shipment of House Dresses Go on Sale Tuesday at \$1.90 and \$2.90

All the newest novelties in House Dresses are included in this shipment as well as the season's new colors and patterns in ginghams, prints and percale. They are fine quality Dresses, being marked at specially low prices which our big buying power enables us to do.

The \$1.90 Dresses come in a nice new assortment of stripes and spots in ginghams, percale and cottons. The styles are very neat and attractive, and there's a big range to choose from. These Dresses have a nicely made Dust Cap that matches the frock perfectly in color and treatment. One style dress is illustrated.

The \$2.90 Dresses come in plain zephyrs and ginghams, also in a variety of striped effects. The quality of materials are superior and well-made. With these Dresses a neat apron is supplied that matches the frock. All sizes are to be had and there's a splendid assortment to choose from.

UTILITY HOUSE DRESSES AT \$1.90

In this particular garment we have been able to accomplish a point which has really revolutionized the utility of a house dress. It is certain to appeal very strongly to women who appreciate neatness, novelty and true fitting qualities. Up to the time the Utility made its appearance on the market, the woman with a 36-inch bust was in many instances obliged to wear a dress much too large at the bust and shoulders because her waist measure was one or two inches larger than normal or what we may term "average." With this belt adjustment the Utility can be made to fit smoothly and perfectly at both waist and bust. As a maternity dress it is ideal.

INDIAN HERB MEDICINE

806 Cook St.

Read the following

627 Francis Ave.,
Victoria, B. C., April 2, 1914.
Mr. Fitzpatrick:
When I started your Indian Herb Cure I promised you a reference if it helped me. Well, I am pleased to say it has cured my Bronchitis and Asthma. Previous to taking it I lost a lot of time and sleep, couldn't walk any distance owing to the shortness of breath, but now after taking a few treatments, I am a new man and life is a pleasure, and I will highly recommend it to anyone as a cure for Bronchitis and Asthma.
I am, yours sincerely,
JOHN PRESTON.

Are You a Painter?

If so, and you are looking for a job, we can help you. Our business, first and foremost, is to make and sell paint (good, pure paint); your business is to apply it and get paid for your labor. We only supply labor when our clients insist on it; but that is not our prime business, and we do not care who does the work so long as N. A. G. PURE PAINTS are used. You will find it easier to get a job by using N. A. G. Paints, and we can make arrangements which will be to our mutual advantage. Come in and talk the matter over.

The Premier House Publicly Stated that legislation will be introduced next session to deal with the report of agricultural commission. One of their recommendations is that the provincial government should loan money to farmers on easy terms according to the productive value of their lands. Start in now so that when the time comes your land will have a productive value on which you can obtain money for further developments. We can show you good farming land on the E. & N. railway at a cheaper price and on easier terms than you can get it anywhere else. Vancouver Island Fruit Lands, Ltd., General Agents, Carmichael & Moorhead, Ltd., 608 Belmont house, phone 1914.

Counterfeit Bills.—It is stated that counterfeit bills on the Bank of Montreal have recently been put into circulation by some unscrupulous fraud-monger. While the bills are not remarkably clever imitations, they are executed well enough to deceive one not accustomed to detecting such frauds.

Valuable Gift.—Hon. Charles Dalton, of Tinnish, P. E. I., the millionaire fox king, who was here a short time ago, has presented St. Dunstan's college with \$10,000 stock in the Charles Dalton Silver and Black Fox company, and guarantees that if the dividends fall short of 50 per cent. he will make up the difference for ten years. At the end of that time the shares become the property of the college, which makes the gift equal to \$60,000.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, Saturday, April 20, 1889.

A sturgeon weighing seven hundred pounds was caught in the Fraser River a few days ago. It was reserved for the Victoria market.

Good Friday (yesterday) was observed generally as a holiday, and was enjoyed only as Victorians know how to enjoy themselves. Vehicles of all descriptions were in use and a number of equestrians were noticed. Beacon Hill never looked more charming. The Arm was dotted with pleasure boats and the banks were fairly well lined with picnic parties. Fully two hundred people went up the E. and N. to various points.

About 3,000 people were present at Beacon Hill, Friday afternoon to witness the first game of the season between the James Bays and Maple Leafs. The James Bays won by the score of ten to five.

The steamer Empire, which arrived at Nanaimo Thursday night, reports speaking the Victoria sealing schooner Viva, 25 miles west of Point Granville, with 563 seal skins on board. One hundred seal skins were taken at Cape Flattery by the schooner Vulture.

Indigo Blue Serge Men's Suit, \$30.

We also make up your own goods. Fine tailoring, moderate prices. Pendlebury, ladies' and gents' tailor, 1109 View.

Lighting-up Time.—Lighting-up time this evening for all horse-drawn vehicles and bicycles is at 8 o'clock. Front and rear lights are required on all automobiles between the hours of dusk and dawn.

New Dwellings.—Permits have been issued by the building inspector for the erection of a dwelling for John Orlick on Prior street, to cost \$2,900, and a dwelling for A. P. Luxton, K. C. on Rockland avenue, to cost \$9,000.

Wardens Named.—Lewis Toms was appointed rector's warden and J. S. Floyd people's warden at the vestry meeting of St. Mary's church, Oak Bay. The questions of a parish hall and an organ are to be taken up by the church committee shortly.

Sunday Music.—A large crowd assembled in Beacon Hill park yesterday afternoon when the 85th Fusiliers' band under Bandmaster Rowlands gave its first outdoor concert of the season. These concerts will be given in the park on Sundays throughout the summer. The Fusiliers and Fifth Regiment bands alternating. The usual Sunday evening concert took place last night at the Victoria theatre when a fine programme of popular music was presented. The vocalist, Donald Gray, was received with much enthusiasm in two numbers, and Mrs. Gray in the role of accompanist contributed no small share of the performance. Next Sunday the band will give its 25th and last concert of the season, when a special soloist and very choice programme will be presented.

No Bonar Law Street.—Victoria is not the only place where changes in street names meet with objections from the people who are immediately affected. In Dublin, the other day, there was an objection voiced by one of the aldermen to the name of the Unionist leader being given to a new road. Ald. Kelly said he had no objection to the calling of other streets "Redmond street," "Carson street," and so on, so long as they were named after Irishmen, but he had a decided objection to hanging up the name of Bonar Law on any street corner in Dublin. Lord Mayor Sherlock remarked that perhaps the alderman would have no objection to hanging Bonar Law on a corner. The alderman replied that he had no such desire, but as a Dublin man he was surprised that any committee of the corporation should have entertained such proposed name. His motion, that the report be changed "so far as it applies to a Scotch-Canadian" was unanimously adopted.

PRINCESS THEATRE HAS "A FOOL THERE WAS"

At the present time this play is creating a veritable sensation. It is a clever blend of comedy and melodrama founded on Kipling's poem, "The Vampire." The Fool, rich, honored, and in love with his wife, is sent on a government mission. He meets The Woman and against all the impulses of his nature, falls under her influence, and finds it impossible to extricate himself. The strength of the performance lies in the capacity of the players to portray the feelings of the prominent character, and the ones to whom they have been intrusted, have spent much time and study on their proper interpretation. Mr. Belasco in The Fool, has a magnificent part and his friends feel that he is fully capable. The Vampire falls to Miss Graham, and though it is an unpleasant character, there is unbounded chances for splendid acting. A strong feature will be the part of Muriel the child, taken by Baby Olivetta. As Kipling's recitation will be given at the rise of the curtain, by Miss Faucett, no one will be seated during the recitation.

MANUFACTURERS, READ THIS

A new era in advertising and selling has arrived—the co-operative era.

It means a pulling-together between you manufacturers and the retailers who sell your goods.

It means a wider, better, and more economical distribution for your goods.

It means also the use of the newspapers as the basis of your advertising campaigns.

Exhibit of Resources.—In connection with the establishment of a permanent exhibit of the natural resources of the province in the offices of the Vancouver Industrial Bureau, W. E. Scott, deputy minister of agriculture, will go over to the mainland this week to make arrangements for the installation of the exhibit. The new offices of the bureau are at the corner of Pender and Cambie streets.

Annual Reports Printed.—The annual reports of the city departments have been printed and copies are now available at the office of the city clerk. In handy form the reports of the year's work in the several departments are placed together and afford an idea of the amount of work that is being done in the city and the progress being made in all branches of civic energy.

Corrects Financial Journal.—Fire Chief Davis has forwarded to the Monetary Times a correction of that journal's error in ascribing to this city the fire losses of Vancouver for 1913. To anyone living in this province it is clear that a slip was made in using Victoria for Vancouver, but to outsiders the item in such a prominent paper would naturally be taken as correct. Chief Davis has pointed out to the journal that instead of the fire loss here being \$627,799, as the item stated, it was only \$47,000.

Street Widening Arbitration.—A court of arbitration has been completed for the purpose of dealing with the claim of John Murray for compensation for the portion of his property at the corner of Denman and Shakespeare streets which is required by the city for street widening. Hugh Kennedy is acting for the city, J. J. Shalloo for the owner and A. P. Luxton, K. C., as third arbitrator. The city offers \$4,800 for the property required but the owner has put in a claim for \$23,000. The first sitting of the board will be to-morrow.

Brought Flowers.—The Sunshine chapter I. O. D. E. performed a little labor of love on Saturday when, after a meeting at the home of their regent, Mrs. Hattenbury, they visited the children's ward of the Jubilee hospital with gifts of flowers. They had also contributed a large parcel of shoes and stockings in answer to the appeal of the day nursery. The chapter was formed only in January and already boasts a large number of members. Twenty-nine little girls were present on Saturday.

Mexicans Enjoy Themselves.—According to Mexican newspapers just received the advance of Villa on the federal towns is not interfering very much with the enjoyment of the inhabitants. For instance there is a long account of a concert in Alameda at which thousands of people, including many Americans were gathered. In another column of the same journal it states that the second of the series of Sunday dinners given by the American club was more successful than any had been before. It would appear that Uncle Sam's citizens still seem to have a fairly good time down there in spite of wars and rumors of wars.

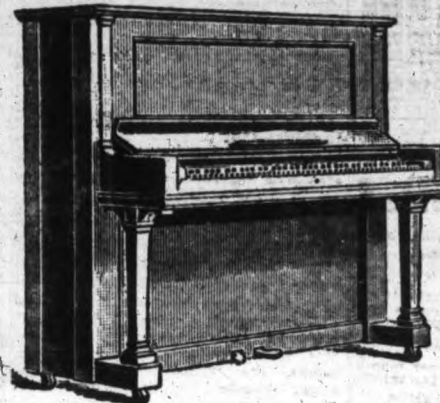

Phoenix Book Beer, "The Spring Tonic."

NOT ALL THE SAME.

It is a common remark among certain people in speaking of life insurance companies to say that "all companies are the same."

There are, however, quite a number of well known citizens of Victoria who have found out by experience that there is a very decided difference in companies. A number of these people have carried policies in different prominent American companies, as well as in The Mutual Life of Canada, and their experience in every case has been that on the maturity of their policies at the end of 20 years—notwithstanding the fact that the premiums paid to The Mutual Life of Canada have been about 10 per cent. less than those charged by the American companies—the dividends and bonus results paid by The Mutual Life of Canada are actually greater than those of the American companies. The strongest recommendation The Mutual Life of Canada receives comes from their policyholders who have had such experience. There is nothing that counts for so much as the knowledge gained by experience. It pays to insure in The Mutual Life of Canada. R. L. Benson, Manager; Fred M. McGregor, Special Agent; Offices, 918 Government Street.

Save \$62 on a New WEBER!

Regular Price Is \$350

Special Sale Price \$288 on Terms

Manufacturers Combine With Us in Special Sales Effort

Here is good news for everyone who wants a first-class, brand new piano at a direct saving of \$62 on the regular standard price, and on terms that make it easy for almost anyone to own an instrument. The makers of the splendid WEBER PIANO have joined with us in this special effort to introduce the instrument here.

The New Webers on These Easy Terms

Only ten of these pianos will be sold at this price and on these terms. Only ten people can take advantage of this great saving.

These are the terms: Take your choice of the ten—or of such as remain of the ten—at \$288 instead of the regular \$350. Pay us \$10 down to insure delivery to your home, and then pay us only \$2 a week until the instrument is yours.

Think what that means: you effect a direct saving of \$62, you have the piano in your own home right away by paying down just \$10, and you pay off the balance in easy payments of \$2 a week. The WEBER PIANO is the finest piano made at \$350. In action, tone and finish it is superb. Its appearance entitles it to a place in any drawing-room. It is used in the homes of many people who could well afford a much more expensive instrument if they did not prefer the WEBER. In every way a first-class piano, it is our desire to introduce it quickly in Victoria.

If YOU want one of the Ten WEBERS be on hand to-morrow morning—they won't last long!

Shipping News from Day to Day

CARGOES ARE SMALL NOW FROM ORIENT

Goods Divided Among More
Vessels Than Formerly;
Mexico Maru Coming

Cargoes coming in for Victoria on Japanese liners from Oriental ports have fallen off perceptibly during the past few months. It is very seldom that a Nippon or Osaka liner steam into this port with anything like a fair-sized cargo. The manifests of the vessels of late have been very small and the freight is running about 150 to 200 tons a ship. One Japanese steamship came in only recently with less than 100 tons and the last Osaka liner had just a few tons over that mark. The cargoes for Tacoma, Seattle and Vancouver have been affected also and some shipping men are inclined to put down as the cause of the small freight lists the entry of a number of other lines into the trans-Pacific trade, which have no doubt taken away much of the Japanese lines' business.

This morning R. P. Rithet & Co., agents for the Osaka Shosen Kaisha, received information from Yokohama stating that the steamship Mexico Maru, Capt. Kobayashi, which left port on Wednesday last, has less than 200 tons of freight aboard for discharge at Victoria. Her passenger list is fair, however. There are 10 steerage travelers who will leave the ship here, and of this number five are Chinese, three of whom are newcomers. The Mexico is expected to dock here one week from Thursday.

No Word of Architect.

It was expected that the Harrison liner Architect, Capt. Nelson, would leave San Francisco today for Victoria, but no word had been received by the local agents of her departure. She has 500 tons of old country freight to put off at the outer docks. The vessel is expected in before the end of the week.

To-morrow afternoon at 3.30 o'clock the Nippon Yusen Kaisha liner Sado Maru, Capt. Asakura, leaves port for the far east with a full cargo and many passengers.

SCHOONER COMMERCE IN

The four-masted United States schooner Commerce arrived in the Royal Roads yesterday afternoon, completing a passage from Iquique, Chile, in ballast. She was towed into William Head by the tug Prosper, which flies the Stars and Stripes. Thinking that he had to come to Victoria to clear for Vancouver, the master of the Prosper towed the Commerce to an anchorage in the Royal Roads, and then steamed to Victoria. Having let go her hawser, the tug could not again take the ship in tow, owing to the Canadian Shipping act. Arrangements are being made to have the C. P. R. tug Nanook take the Commerce to Vancouver, where she is to load a cargo of lumber for Suva, Fiji Islands.

The British barque Celticburn, at Cardiff from Tacoma with grain, reports having encountered heavy seas December 11 off Cape Horn, and also during the rest of the voyage. She lost a number of sails, and had her lifeboats damaged.

TIMES SHIPPING CHART

August, Russian barque, from Callao for Royal Roads for orders	Sailed Mar. 20
County of Lintlaw, Chilean ship, from Valparaiso, to load at Vancouver	
Commerce, American schooner, to load at Vancouver	
Curtis, Chilean barque, from Valparaiso to Royal Roads for orders	

PRINCE ALBERT HIT SANDBANK AT UNION

G. T. P. Steamer Discharges
Some of Coal Cargo and
Floats; Rupert Sails

When steaming out of Union Bay early yesterday morning with her holds filled with coal consigned to Prince Rupert, the Grand Trunk Pacific steamer Prince Albert, Capt. Morehouse, had the misfortune to ground on the sandbank there. One hundred tons of coal was lightered and the vessel came off on the following high tide. Telegrams received here state that the Albert was undamaged and proceeded on her way north last night.

The summer schedule of the Prince Albert calls for one sailing out of Victoria every fortnight to Prince Rupert. She alternates on a twice-a-month run from Union Bay to the northern port. These latter trips are made to handle coal for the locomotives of the G. T. P. The Albert left Prince Rupert last week with the barge Bangor in tow for Union Bay, and after delivering the bulk proceeded to fill her holds with coal. She swung out into the stream a little after midnight and touched on the bank about 3 o'clock Sunday morning. She did not hit hard, but it was necessary to wait until the tide rose before she would answer her wheel and slip into deep water. In the meantime 100 tons of coal was taken out. A survey of the vessel failed to reveal any damage and she started on her voyage to Prince Rupert.

Rupert Goes North.

This morning the steamer Prince Rupert, Capt. D. McKenle, of the G. T. P. fleet, sailed for Prince Rupert and Granby Bay, with a fair passenger list and considerable cargo. Among those who embarked at this port was Wm. Marchant, inspector of customs. He is going to Prince Rupert, Hazelton, the Stikine country, Dawson and White Horse. He is being accompanied on the trip by George E. Norris, of the local customs staff. Other passengers who embarked here were A. E. Turner, Wm. Richardson, T. A. Coulson and Alexander Reid.

On her last voyage the Prince Rupert had splendid weather and she carried a large list of passengers north, although the number coming south was rather light. Travel at the present time is to the north, and many people are rushing to Prince Rupert and Granby Bay.

MEN TO BE DEPORTED

The three men, who were formerly members of the hopper dredge "Hercules" crew, have been ordered deported to Singapore at the expense of the C. P. R., and they will take passage on the next outgoing liner which will be the Empress of India. A conference was held at the immigration buildings on Friday, and it was decided to send the men back to the port where they signed on. The men quit the dredge at Wakamatsu, Japan, claiming that she was unseaworthy, and they were sent home by the British consul. The captain claimed that they were deserters and his view in the matter has been sustained.

Phoenix Book Beer, \$1.50 per dozen quarts.

FAMOUS WHITE STAR SKIPPER ON COLUSA

Capt. Lobez Writes F. R. G. S.
After His Name; Has Had
Interesting Career

Seattle, April 20.—In Capt. Raphael Lobez, the new commander of the steamship Colusa, which made port from the west coast Friday night, the W. R. Grace & Co. fleet possesses the only master in the world who can write the letters F. R. G. S. after his name. At least, merchant seamen experts are unable to find trace of any other master so honored by the Royal Geographical society of London, England.

Captain Lobez, who is of Irish and French descent, was elected a fellow of the famous society because of his scientific researches. His analysis of the phenomena of the sea, won him the recognition of Nansen, the famous Polar explorer. Nansen published the Lobez analysis in his story of his Polar expeditions. Because of the analysis and other scientific work by Captain Lobez, the Royal Geographical society elected him a life member of fellow. The new master of the Colusa makes a hobby of scientific investigation, his efforts being chiefly directed to stellar work, or the charting of the stars. One of his stellar charts represents six years' study. As a navigator, he works out all his observations by the stars. Aside from his scientific honors, he wears the medal awarded by the British Human society for life-saving. Twelve years ago, a Hindu craft foundered in a cyclone in Calcutta harbor with a loss of twenty-nine out of thirty men. The thirtieth man rose to the surface. Despite the cyclone Captain Lobez called for volunteers to man a boat, and rowed to the native rescue. The boat reached the man in ten minutes, but was three and a half hours getting back to Lobez's ship.

Moves to Coast.

This is his first visit to Seattle. He joined the Grace fleet last January after a service of more than sixteen years with the White Star line as master, nautical expert and marine superintendent. He commanded the giant greyhound Teutonic and Boreas in the Atlantic service, the Celtic and the Romanic in the Mediterranean service, the Medie in the Australian service, and the Coptic in the San Francisco-China service, the Coptic being one of the White Star liners chartered to the Occidental & Oriental Steamship company.

At the end of last year Captain Lobez decided to make his home in California, where he acquired property in the San Francisco area. He resigned from the service of the White Star and entered the employ of W. R. Grace & Co., moving his home from England to San Francisco. He is probably the first master of big transatlantic liners to leave that ocean for the Pacific.

"Deadwater," the study of which gained Captain Lobez the recognition of Nansen, is the marine term for strange currents encountered in the ocean, as a result of which ships sometimes find themselves in water moving more rapidly than they can steam. Strange phenomena is attributed by Captain Lobez to undercurrents caused by the difference in density of the water at the top and the water at the bottom of the ocean.

FOUR MORE SHIPS, TAKEN.

San Francisco, April 20.—Four French vessels have just been chartered for new crop barley from this port to the United Kingdom. They are the barques Buffon and Duquesne, taken by Balfour, Guthrie & Co., at 27s. 6d., and the La Fontaine and Asnières, taken by G. W. McNear, the La Fontaine at 28s. 5d. and the Asnières at 27s. 6d.

These are the first barley ships taken this year. Two more are reported fixed but particulars are not announced.

ORIENTAL SHIPS DUE DAYLIGHT THURSDAY

Empress of India and Yokohama Maru Report Time of Arrival Here

Daylight next Thursday morning will find two big Oriental steamships riding at their anchors off William Head waiting for the quarantine doctor to put off and grant them their practices, enabling them to proceed to British Columbia ports. The R. M. S. Empress of India, Capt. Halley, and the Nippon Yusen Kaisha liner Yokohama Maru, Capt. Wade, both reported by wireless last night that they would reach the station during Wednesday night.

The Empress of India was close to 1,300 miles out to sea at 5 o'clock last night, and the Japanese liner was over 500 miles from Victoria. Although the Yokohama is a couple of knots slower than the white steamship, she should make William Head some hours before the Empress, and thereby be first in line for the doctor in the morning.

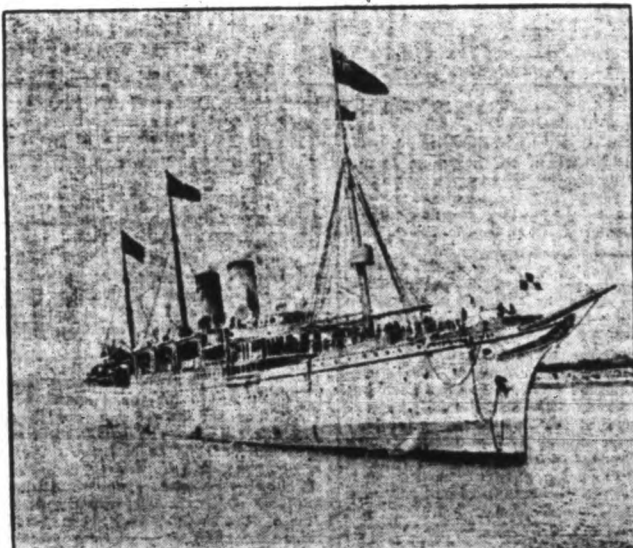

New Skipper on India.

It is understood that Capt. Halley, formerly master of the Monteagle, is bringing in the Empress of India. The ship's liner left here in command of Capt. R. L. Davidson, who was under orders to switch ships with Captain Hudley upon reaching Hongkong. The change was to have been made on the previous trip, but Capt. Davidson was taken seriously ill and had to remain ashore.

The Empress of India is bringing in a light list of passengers, and has the usual cargo of silk, furniture, sugar, rice, sake and general Oriental merchandise.

The Yokohama Maru has about 300 tons of cargo to discharge at this port. She has a large list of passengers, and about 35 will disembark at this port. The Nippon liners are bringing large lists of passengers from China and Japan, due to the fact that a number of Japanese excursion parties are returning from tours of their native land. Few Chinese are travelling. A number of Russians are wending their way across the pond, and most of them are going to the United States.

BIG WHITE LINER WHICH COMES IN ON THURSDAY

R. M. S. EMPRESS OF INDIA

MATE GOES INSANE AND CREW HAVE BAD TIME

Portland, April 20.—Laboring under the hallucination that the second mate was plotting to kill him, M. J. Ryan, first officer of the schooner M. Turner, which arrived at Portland from Iquique Saturday evening, caused all manner of excitement aboard the vessel on the passage. Captain S. Olsen, master of the schooner, said that Ryan went insane soon after the M. Turner crossed out of Grays harbor in October, bound for the west coast.

At first the demented man is reported to have accused the sailors of being implicated in the plot to take his life, and he insisted on a statement to that effect being placed in the official log. To humor him, the captain states, this was done. Later he was granted permission to change the charge so as to include only the second mate. He kept growing worse, and with a knife in each hand he chased various members of the crew about the vessel. Finally he was overpowered and handcuffed, and two days later he appeared to have recovered fully.

During the remainder of the passage down the coast and on the way back to the Columbia river he seemed directly rational, until April 1, when again the captain says he began to show signs of insanity. He fancied the captain had taken his citizenship papers and clothes from him, and he kept demanding their return. After the vessel arrived at Astoria the unfortunate man was turned over to the custody of immigration officials.

GREAT NORTHERN TO FIGHT.

Seattle, April 20.—The Great Northern Railway & Steamship company, it is announced, will put in through rates on bulk freight between points east of Chicago consigned to the Orient by way of the port of Seattle, and will meet the rates which have been in effect for three years on the Milwaukee and the Osaka Shosen Kaisha Steamship company.

Heretofore the Great Northern has not participated in the business which originated east of Chicago because of having declined to install rates which would make this revenue possible.

POSITIONS OF VICTORIA OCEAN-GOING TRADERS

This shipping list, containing the positions of ocean-going ships, which make Victoria one of their ports of call, will be published weekly.

Osaka Shosen Kaisha.
Panama Maru, sailed from Victoria for Hongkong, April 20.
Tacoma Maru, arrived Yokohama from Victoria, April 18.
Seattle Maru, at Tacoma, loading outward.

Canada Maru, arrived Hongkong from Victoria, April 20.
Chicago Maru, left Hongkong for Victoria, April 16.
Mexico Maru, left Yokohama for Victoria, April 15.

Nippon Yusen Kaisha.
Sado Maru, discharging at Seattle, sails outward April 21.
Tamba Maru, due Shanghai from Victoria, April 21.
Aki Maru, left Victoria for Hongkong, April 7.

Yokohama Maru, left Yokohama for Victoria, April 8, due April 22.
Shidzuka Maru, reached Hongkong, April 11.
Awa Maru, at Yokohama, loading for Victoria.

C. P. R.
Empress of Japan, sailed from Victoria for Hongkong, April 2.
Empress of Russia, sailed from Victoria for Hongkong, April 16.
Empress of India, left Yokohama April 11, due Victoria April 22.
Empress of Asia, left Shanghai for Victoria, April 19.

Monteagle, due Shanghai from Hongkong, April 21.
Canadian-Australia.
Makura, sailed from Victoria for Sydney, April 15.

Marama, arrived at Sydney, April 11.
Niagara, sailed from Sava for Victoria, April 14.
Kent, sailed from Brisbane for Pacific coast, March 25.

Canada Cape, left Vancouver for Sydney, April 2.
Blue Funnel.
Ixion, left Liverpool for Victoria, March 25, passed Port Said April 8.

Talhythius, left Hongkong for Manila, April 19.
Bellerophon, left Victoria for Liverpool, April 15.
Antiochus, left Hongkong for Victoria, April 15.

Cyclops, at Vancouver, discharging. Teucer, left Singapore for Liverpool, April 6.
Protestant, reached Liverpool from Victoria, April 17.

Titan, due to sail from Liverpool for Victoria, April 25.
Maple Leaf Line.
Arna, left Esquimaux for Eureka, Canada, April 11.

Buena Ventura, arrived at Avonmouth from British Columbia, March 30.
Kentra, from North Pacific ports for England, called at Coronel, April 1.
Queen Louise, sailed from New York, March 21.

W. R. Grace & Co.
Colusa, at Seattle, overhauling.
Cuzco, sailed from Salina Cruz for Victoria, April 7.

Queen Margaret, left Sydney, Aust., for Fremantle, April 11.
Royal Mail Steam Packet Co.
Merionethshire, arrived at Hongkong, April 14.

Glenroy, at Seattle.
Cardiganhire (new), sailed from Seattle for Kobe direct, April 10.
Radnorshire (new), sailed from Yokohama for Puget Sound, April 15.

Den of Ruthven, sailed from Hongkong for Japan and Puget Sound, April 13.
Carnarvonshire (new), sailed from London for Victoria, April 14.
Den of Airle, arrived at Singapore from Puget Sound, April 2.

Glenloch, left Perth for Puget Sound, April 5.
Harrison Direct Line.
Engineer, from Victoria to Liverpool, passed Fernando de Noronha, April 12.

Architect, at San Francisco from Liverpool, April 18.
Muskelan left Liverpool for Victoria, April 18.

Candidate, due to load at Antwerp for Victoria, April 29.
Benefactor, en route from Liverpool for Victoria, due at San Pedro, May 10.

Crown of Toledo, at San Francisco, loading for Liverpool.

NANAIMO TO HAVE NEW SERVICE WITH SEATTLE

Nanaimo, April 20.—A representative of a prominent steamship line with headquarters in Seattle has been in Nanaimo for a few days conferring with the executive of the Nanaimo Industrial Development league on a proposal to inaugurate a direct steamship service between this port and Seattle in the near future. This service, in addition to a direct saving in freight rates, will, with present arrangements, if carried to a successful issue, mean a saving of approximately \$5 per ton on all freight shipped direct from American ports to Nanaimo. International shipping laws at present prohibit American ships carrying freight or passengers from one British port to another, which naturally proves a handicap to American vessels, but the officials of the company which proposes inaugurating a line to Nanaimo, are confident that from a central point on the island, such as Nanaimo, they will experience little difficulty in distributing freight to all points on the island.

According to present arrangements the new service will be inaugurated in about three weeks' time.

SUSPENDED FOR TEN DAYS.

As a result of the collision in Tacoma harbor several weeks ago between the steamship Hyades and the liner Canada Maru, the license of Capt. John C. Youngren, of the Hyades, was Saturday suspended for a period of ten days by the local government steamboat inspectors. Capt. Youngren was found guilty of negligence and unskillful navigation.

S. S. "PRINCE RUPERT" S. S. "PRINCE JOHN" S. S. "PRINCE GEORGE" S. S. "PRINCE ALBERT"

Tri-Weekly Service to Prince Rupert

Leaving MONDAYS, THURSDAYS AND FRIDAYS AT 10 A.M.
To Granby Bay, 10 a. m. Mondays.
Island points every week.

TO SEATTLE, 10 A. M. SUNDAYS AND WEDNESDAYS.
TO VANCOUVER, 10 A. M. MONDAYS, THURSDAYS AND FRIDAYS.
GRAND TRUNK PACIFIC passenger trains leave Prince Rupert Mondays, Wednesdays and Saturdays at 10 a. m. for Terrace, Hazelton, Smithers.

Mixed trains to Priestly (Mile 237).
Passenger train service through to Prince George from Edmonton three times per week.
C. F. EARLE, C. P. & T. A.

ANOTHER COMPANY ENTERS
ALASKA STEAMSHIP FIELD

Seattle, April 19.—Control of the Western Alaska Steamship company, operating from Seattle to Kotzebue sound and Behring sea ports, was acquired on Saturday by W. C. Dawson & Co., the new management immediately announcing that not only is it preparing for a season of great activity in the Kotzebue Sound-Behring sea trade, but that it expects to enter the southwestern and southeastern Alaska field next fall. The announcement caused considerable stir in shipping circles.

The Western Alaska Steamship company, formerly known as Shubach & Hamilton, has operated in the Kotzebue sound and Behring sea trade for the last five years. Last summer the steamships Mackinaw and Navajo were employed in the service.

Following the change in control

OBSTACLES TO LANDING

Superintendent of Immigration Thinks Shipload of Hindus Will Not Be Admitted.

Superintendent of Immigration Malcolm Reid was in Victoria at the week-end, and on his return to Vancouver stated that the story that some hundreds of Hindus or Sikhs are en route to the coast on the Komagata Maru, can not be taken to mean that they will be allowed to enter British Columbia. The departmental order that no laborers, skilled or unskilled, can enter the country, which expired recently has been renewed for six months. This in itself, says Mr. Reid, will stop the bulk of them as few of them will be pupils or scholars, merchants or round-the-world tourists.

Resides, the clause dealing with the continuous journey from place of birth, states Mr. Reid, which was declared ultra vires by the chief justice of British Columbia, has been re-enacted and any new arrival must have travelled on a ticket bought by himself or prepaid in Canada without breaking his journey. Also it has been enacted that each of the arrivals from India must have at least \$200 in his own possession. No passing of money from one to the other will be allowed. All Asiatics, under the latest orders of the department, must also be physically, mentally and morally fit. Many Asiatics are rejected by the medical officer.

COMPLIMENT TO LOCAL CO.

The legislature of Prince Edward Island has just passed an amendment to its trust act by which the guaranteed first mortgage investment certificates of the Dominion Trust company are included in the securities available for the investment of trust funds. The fact that the securities of the big British Columbia company are regarded so favorably by the legislature of the island province is looked upon not only as a compliment to the management of the company, but as a tribute of confidence in this province as well. For most of the mortgage certificates are based on property in Victoria, Vancouver and surrounding country. Large quantities of them have been sold to investors abroad, particularly in Scotland and Belgium.

DUTY OF PUBLIC IN PREVENTING DISEASE

Dr. A. P. Proctor Delivers a Striking Address to Nurses; the Toll of Tuberculosis

An interesting paper on public health was read to the nurses' convention last week by Dr. A. P. Proctor, of Vancouver, who dealt with the results of preventive medicine in combating some of the commonest diseases, such as typhoid, diphtheria and tuberculosis. What the presence of the latter disease means in this city was brought home by Dr. Proctor by the statement that out of the 549 deaths which took place in 1913, 82 were due to that cause, or 11 per cent.

Canada loses annually, he said, fifteen thousand of its citizens through tuberculosis; British Columbia lost 429 last year, Vancouver 123, and the year loss in the United States is 155,000. On a conservative estimate of the financial loss which this is to a country or city the annual loss to the Dominion is ninety million dollars, to British Columbia two and a half million dollars, to Vancouver three-quarters of a million, and to Victoria three hundred and eighty thousand dollars. The patients from one sanatorium discharged during seven years earned \$164,000, while during the same period the entire expenditure on that institution was \$236,000—a return of 200 per cent on the investment in cold cash, to say nothing of the personal side of the matter.

"We have traced twenty-five patients discharged apparently cured from our own sanatorium at Tranquille," said Dr. Proctor, "and found that their earnings have amounted to over \$61,000. If it pays to cure consumption, how much more would it pay to prevent it?"

Light, ventilation, sanitation and the enforcement of the prohibition of expectoration in the streets were mentioned by the speaker as among the means of fighting this pestilence, but he warned against the creation of slum conditions which do so much to foster the disease in older cities. Dealing with alcoholism Dr. Proctor said:

"I want to touch for a few moments on the great question of alcoholism, a subject upon which I almost hesitate to speak because so great has been the injury to this great question by the injudicious utterances of so-called temperance reformers, and yet you cannot touch the question of the public health without being face to face with the curse of this disease."

"Nothing next to tuberculosis, is doing more to destroy and, nothing excepted, to so demoralize our people. Alcoholism stands out pre-eminent as the great cause of our national inefficiency. Alcoholism is the cause of 10 per cent of all mortality, 20 per cent of all disease, 50 per cent of all idiosyncrasy, insanity and pauperism, and from 70 to 90 per cent of all criminality. These are facts, not fancies."

"If you doubt them go to your police authorities, the judiciary, your gaols,

LOCAL CAPITAL SHOULD SUPPORT LOCAL ENTERPRISE

Agitation for Further Industrial Development on Vancouver Island Might Be Preceded by More Intensive Development of Sound Existing Industries

SIDNEY RUBBER ROOFING PLANT OFFERS SPLENDID OPPORTUNITY

First Unit Now Completed Gives Proof of Possibilities and Additional Capital Will Enable Concern to Put Entire Plant on Full-Production Basis

The discussion that has been going on of late concerning the advisability of taking steps to attract more industries to Victoria and to Vancouver Island generally gives rise to the thought that it would not be amiss first to direct the attention of local capital to the possibilities in many of the sound local enterprises now existing.

"The time has come," said one of Victoria's leading business men recently, "when local capital should prove its worth by supporting home industries. Of late years there has been too much of a tendency to seek openings afar off, leaving the splendid opportunities at home to be grasped by outside people. There is ample capital available in Victoria and Vancouver island offers sterling opportunities in great variety. Why can we not 'get together' the two factors? The result would be a much more rapid rebuilding of Victoria and this island, and a greater share of solid, lasting prosperity for all of us."

A good example of such an opening as this business man referred to is that of the Sidney Rubber Roofing Company, Limited, a local concern backed by leading local men. This company was organized to take legitimate advantage of the rapid growth and large industrial expansion of western Canada. Its purpose is to refine crude oil for the manufacture of asphalt roofing paper, asphalt shingles, asphalt for paving purposes, fuel oil for steam generation, etc., asphalt oil for roads and heavy lubricating oils. Capital was subscribed and the plant has been erected at Sidney, where the company owns four acres, forming a most advantageous site lying between the railway and the water. The plant, which is modern in every respect, has for some time past been working its first unit, manufacturing everything but the roofing paper and shingles. It has proved beyond all question its capabilities. Now, it is said, the directors will probably call shortly for more

capital to enable them to erect a permanent storage tank of sufficient capacity to take the complete cargo of a 60,000-barrel tank steamer. This will reduce the cost of the crude oil so materially that the plant will be able to open up to full capacity at once.

Few Victorians realize that a complete plant such as is referred to exists at Sidney. It is in charge of an expert whose experience extends over many years, and whose enthusiasm over the opportunities before the local enterprise is boundless. Everything required for the complete operation of the plant is already in place except the storage tank referred to above, some additional wharfing and possibly some extra storage space for felt paper. The first unit of the plant, which has been in operation for some time, has demonstrated that the full output of the plant will find a ready market at excellent profits. The extensive machinery for the manufacture of the roofing is in place and practically ready to run.

The Sidney company has no local competition in the western Canadian field. The present demand of from 1,000 to 1,200 tons per month is growing steadily and is being supplied by concerns in California and in eastern Canada. The Sidney company has marked advantage over this competition by reason of the saving in freight on the crude material from the points of production to the points of manufacture.

Why should the directors of this company have to go far afield when they require capital for further expansion? Local capitalists who are right on the ground have every advantage; a few hours' time will serve to show them the plant and equipment as it exists; the entire enterprise is open before them. It is to be hoped that if stock is offered locally Victorians will not fail to take advantage of the opportunity to thus support a worthy and valuable local industry.

the asylums, hospitals, and learn the facts first hand, and it seems to me that those of us who do know and who realize the meaning of these facts to the public health have a serious responsibility to our people. Can any man or woman who contemplates these facts and realizes the terrible effect upon the efficiency and fitness of the race and remains indifferent lay any claim to good citizenship? The average man is not indifferent. I meet and talk with all sorts of people, and with hardly an exception I find that however widely they may differ as to the means to be adopted, they all agree that the present system of the open bar in the hands of men whose every interest is to sell as much as possible is horribly wrong.

"Whatever other people may think, the members of your profession and mine know that alcohol is a narcotic drug, with all that that means in the matter of the creation of habit. Surely it should not be difficult for an intelligent administrative body to devise some system under which, if men must have alcohol, they can have it under the best conditions of government control, under which the question of personal profit to the dispenser is eliminated and where the quality of what they drink is guaranteed. I am a total abstainer because I believe that a man is better without alcohol, but I am not foolish enough to believe that all those who do not see eye to eye with me may not be profoundly interested in this question. We cannot force our view down other people's throats however well-developed the swallowing habit may be, and any attempt along this line spells failure, but I have sufficient faith in our people to believe that any government wise enough and big enough to make the attempt along same lines to deal with this question will get the support of the majority of our people."

As to remedies he said: "We want several things. First—Departments of health with absolute power to deal with all questions affecting the public health. Departments with adequate money to conduct them, and free from interference from the type of legislator who is always ready to hold up a reform if he feels it may cost him a vote. Second—We want properly co-ordinated legislation from our administrative bodies giving these departments the power to carry out their regulations, instead of these administrative bodies playing battledore and shuttlecock on the question of jurisdiction, which results in paralyzing all true efforts at reform. Third—We want our government to supply sufficient money for these objects, and also to see that the indigent sick are properly cared for, especially those whose misfortune makes them a menace to others."

"Fourth and lastly, we want, further, an enlightened public conscience. 'We want our citizens to awaken to a greater sense of personal responsibility. There is too great a disposition to leave everything to our administrative bodies. We want our citizens, and especially those to whom money and influence has been given, to awaken to a keener sense of duty towards these great questions. In other words, we

want from our citizens the best kind of service from the best kind of people, and could any work be better? Our people must realize, as they are realizing in older countries to-day, that apart from the humanitarian side of these questions it does not pay to have a people physically unfit."

INDIAN COMMISSION PLANS

New Chairman Formally Chosen; Accident to Vessel Chartered for West Coast Trip.

The formal selection of Nathaniel W. White, K. C., as the chairman of the Royal Commission on Indian Affairs was made by his colleagues on Saturday, all the members of the commission being present.

As now re-constituted the commission consists of Chairman White, advanced from representative of the Dominion to its head; Dr. J. A. J. McKenna and Sammaré Carmichael, representing the Dominion; J. P. Shaw, M. P., and D. H. McDowell, representing British Columbia.

During the week the commissioners will perfect their plans for the work of the season, which have been tentatively drawn up for them by officials of the commission.

The plans have been upset to some extent by an accident to the steamer which was chartered to take the commissioners around the west coast and northern coast reserve, news of which was received by cable on Saturday afternoon. The vessel is the steam yacht Santa Maria, recently in the Royal Yacht Squadron, which is now the property of the Canadian Line, Limited, of Vancouver, which is bringing it to this coast for use as a passenger steamer and had chartered it to the commission.

A message from Punta Arenas states that while the vessel was proceeding through the Straits of Magellan she ran on a rock and sustained injuries which necessitated her being taken into the first port for repairs. This will render it impossible for her to get here in time to be of much use this spring, and another steamer will have to be secured.

DUKE IS PATRON.

The following telegram was received to-day from his royal highness the governor-general, and will give an added interest to the impending visit of Commander Evans:

Ottawa, April 20, 1912.

W. Blakemore,
Secretary, B. C. Federated Navy League, Victoria, B. C.

His royal highness will be glad to give his patronage to Commander Evans' lecture and wishes it every success.

MILITARY SECRETARY.

GOOD FOR CHILDREN

As a true Spring tonic and pure blood-making food for growing children, Scott's Emulsion has distinguished itself with the medical profession because it is pure, mild and non-alcoholic. Every druggist has it. Shun substitutes.

If Tea and Coffee Don't Agree

Much of to-day's nervousness, indigestion, languor, kidney and liver trouble, come from indiscretions in eating and drinking, so commonplace that they are seldom considered till Nature pulls one up with a sharp jerk.

More often than is suspected; tea or coffee drinking is the cause of these troubles.

A simple, easy way to discover the real cause and relieve one's self of a lot of discomfort is to quit both tea and coffee for ten days and try

POSTUM

This beverage contains none of the drugs (caffeine, tannin, etc.) which are responsible for many human ailments, big and little. Postum is a food-drink made from prime wheat and a bit of molasses. It is pure and contains only the wholesome goodness of the grain.

Postum comes in two forms:

Regular Postum—must be boiled. 15c and 25c packages.

Instant Postum—a soluble form. A teaspoonful stirred in a cup of hot water dissolves quickly and makes a most delightful beverage, with cream and sugar added to taste. 30c and 50c tins.

The cost per cup of both kinds is about the same.

Thousands who have changed from tea and coffee to Postum know

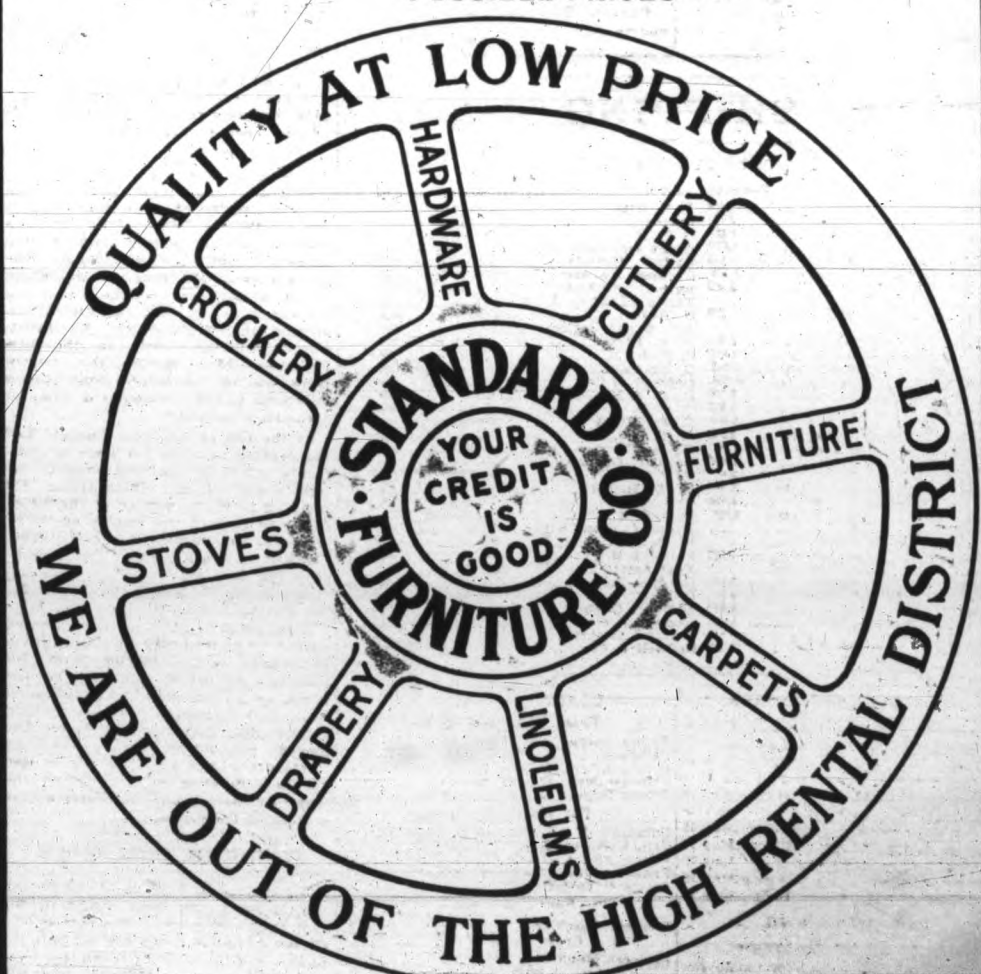

"There's a Reason"

Navvies, Pandoras, 3.
Empress defaulted to Wests.

It was stated by a prominent member of the Wards this morning that the blue and white eleven will scarcely go over to Vancouver to compete against the Coquitlam club for the McBride shield and provincial title. The Wards have but fourteen men registered for this season, and seven of these players are at present unable to go upon the field because of injuries. It would be folly to ask the Island League champions to play in such an important series without having their team intact, and it is likely that the Wards will ask that their games be set aside until the fall. Right now the Bays, Wests or Sons would make a better showing than the Wards, the latter having dropped their last two matches.

Sam Lorimer put over another jolt on the dopesters Saturday afternoon at Oak Bay when his proteges doubled the score on the over-confident Sons of England eleven, the final tally being 4 to 2, with the Bays on the long end. The match was witnessed by a good-sized crowd, the entire gate going towards the hospital expenses of Half-back Mossley, who broke his leg earlier in the season. The Bays took the lead from the start and were never headed, although the Sons rallied in the second half and scored two goals. The Bays outlasted the Sons, scoring the final goal against the wind and making sure of their victory. It was a pretty exhibition of football, the Sons being very much off color in the opening period, when the Bays scored three of their goals.

The second score of the Sons was disputed. Goal-tend Lomas claiming that he had cleared. Referee Goward, however, claimed that the ball was in the net when Lomas stopped the leather. The match was very clean, only two free kicks being awarded. The Bays showed superior speed and they handled the ball better in close to the net. Sons' shooting was very poor in the first half and they should have had one goal at the very start, Douglas shooting wide of the net. Bays were without Captain Lorimer at the beginning, but he trotted on to the field before any goals were tallied. Hines was the hero of the contest, scoring three of the Bays' goals. Joe Shires and Adams were also prominent. Hines was the pick of the Sons, while Hill was prominent, too. H. A. Goward refereed.

The teams: Sons of England—Goal, Thoburn; backs, Hymers and Wyllie; half-backs, Martin, Blendell and Beach; forwards, Kerley, Anyon, Hill, Wells and Douglas. James Bays—Goal, Lomas; backs, Lorimer and Gregg; half-backs, Broadner, Adams and Pilkington; forwards, Shires, Hughes, Hine, Petch and Attwell.

Victoria Wests wound up their soccer season with a 1-0 win over the Thistles at Beacon Hill Saturday in a slow and uninteresting game. Neither team had the advantage, while the Wests' shooting was superior to that of the Scots. Bolton and Whyte played well on the defence for the green shirts, while Howden and Main were the pick of the Scots.

In the opening period the Wests scored, and until the whistle sounded for time the teams battled in mid-field. Toward the latter part of the game the Wests were awarded a penalty, and Yousson, who took the kick, failed to tally.

TC-DAY IN PUGILISTIC ANNALS

1884—W. Sheriff, "Prussian," and J. Welsh fought 76 rounds, lasting 5 hours and 3 minutes, at Philadelphia. This was the longest battle, in actual time spent in fighting, ever witnessed in America with the exception of the Bowen-Burke contest in New Orleans in 1893, which went 110 rounds and lasted 7 hours and 19 minutes. The Sheriff-Welsh bout was just one hour shorter than the famous Madden-Hayes bare-knuckle battle in England in 1849, which lasted 6 hours and 3 minutes. It was also surpassed by the Kelly-Smith battle, a bare-knuckle affair, at Melbourne in 1855, which lasted 6 hours and 15 minutes.

1882—John L. Sullivan knocked out John M. Dermott in 3rd round at Rochester.

1911—Joe Jeanette knocked out Al Kubiak in 5th round at New York.

1913—Frenchman Bernard defeated Willie Lewis in 20 rounds at Paris.

VICTORIA WEST MEETING.

A meeting of the Victoria West Athletic association is called for to-night.

Phoenix-Book Beer, \$1.25 per dozen, quarts.

LEAFS GET INDIAN

JIM THORPE.

Tacoma, April 20.—Jim Thorpe, former all-around amateur champion, who was heralded as a wonder, has been released to Toronto by McGraw. With the big Indian outfielder will go Pitcher "Bunny" Hearne. The two reported to the Leafs at Providence to-day.

McGraw is reported to have declared that Thorpe improved greatly in the world tour of the Giants and the White Sox. It is probable that after a year with Toronto he will be taken back by the Giants.

BAYLEY TO STICK WITH RING GAME

Victoria Lightweight Now After a Return Bout With Frenchie Vaise

A letter received from Joe Bayley yesterday indicates that the "Victoria Lightweight" will remain in California for some time. Bayley is being handled by Jimmy Britt, and the latter is anxious to secure a return bout with Willie Hoppe for the Canuck lightweight. Another match that is looming up for Bayley is a return bout with Frenchie Vaise over the four-round route at Seattle.

Sydney, N. S. W., April 20.—McCormick, the English 148-pound fighter, succeeded in standing up for ten rounds before Young Saylor, of America, here Saturday, but he was severely punished and at last his seconds skied the towel. Saylor weighed in at 138 pounds. He will meet Mehegan, the gentleman fighter, May 9.

Chet Neff, the Seattle lightweight, and Frenchie Vaise, of Renton, will box the main event of a four-round boxing show at Dreamland next Friday night. The smoker will be staged under the auspices of the Pacific Athletic club and six bouts will be on the programme.

Montreal, April 20.—Frankie Fleming, the featherweight champion of Canada, sails for Paris on May 6 to take part in several bouts that have been arranged for him there.

Next Friday the Seattle Athletic club will send over to the Commercial Athletic club at Vancouver a team of three boxers to compete with Chet McIntyre's boys. This team will consist of Earl Baird at 115 pounds and Archie Ward at 125 pounds. Pat Scott will take over this team. May 1 the Spokane Amateur Athletic club boxers will go to Seattle for their return and final smoker of the season.

Sydney, N. S. W., April 20.—Dave Smith, the prominent pugilist, is seriously ill of appendicitis. Reports circulated that he had died, however, are not true.

Melbourne, N. S. W., April 20.—Jimmy Hill, of Australia, defeated Joe Brookes, of England, here.

ANOTHER POLO MEET.

Chicago, April 20.—An annual western polo championship tournament at Lake Forest is being planned. It was announced yesterday. Capt. Frederick McLaughlin, of the Onwentsla team, said that a new trophy had been offered for the mid-western championships, and said that invitation to participate in a tournament would be sent out at once.

Clubs in the east, Colorado Springs, Denver and coast cities will be asked to aid in arranging the tournament. The new trophy must be won for three consecutive years before passing into the ownership of the winning club.

BEES HAVE LOST IN BATTING BUT TWIRLERS LOOK STRONGER

When Manager Delmas took over the Victoria club last August, he was considered to have greatest in-and-out club in the business. Meek, Swain and Alberts could hammer out long drives and many a homer, but this trio invariably fell down in the pinches. This season Delmas set out to get a speedy, light hitting club with a fast fielding defence. He has accomplished this, as the following figures show. The first table gives the complete averages of the players Victoria has lost, and the second table those who are now wearing Victoria uniforms. No records for last year, can be had on Scanlon or Ryan, as they played semi-pro ball in 1913.

	R.	E.R.	S.B.	B.B.	H.R.	S.H.	Bat. Ave.	Fld. Ave.
Meek	85	52	8	79	17	8	.358	.952
Swain	112	135	23	83	24	5	.229	.994
Lynch	77	89	14	38	12	26	.283	.966
Alberts	73	89	8	48	17	15	.263	.971
Rawlings	107	45	36	62	1	38	.282	.947
Shea	36	49	9	18	8	15	.242	.994
Totals	400	510	96	316	89	107	.289	.948

	R.	E.R.	S.B.	B.B.	H.R.	S.H.	Bat. Ave.	Fld. Ave.
Wilhoit	86	58	69	70	2	11	.322	.954
Nye	69	23	47	56	0	18	.296	.944
Zimmerman	28	3	16	42	0	10	.289	.962
Carney	22	7	14	32	0	7	.272	.946
Delmas	57	61	6	25	7	8	.269	.948
Lamb	60	44	11	30	4	6	.253	.939
Crum	48	26	36	36	6	8	.223	.978
Totals	381	249	170	331	16	66	.273	.941

HOW THE PITCHERS SHAPE UP.
With the return of Al Narveson, Victoria adds additional strength to an already strong twirling department. Victoria has a poor bunch of slab artists last season with three exceptions. Kanteleiner and Barham are sure to stick in major company, while Narveson comes back for further seasoning. The complete averages show a tremendous gain for the 1914 Bees in winning pitchers.

	G.	Won.	Lost.	H.B.	S.O.	R.	Pct.
Barham	12	7	5	61	61	49	.583
Kanteleiner	49	23	16	96	253	151	.583

	G.	Won.	Lost.	H.B.	S.O.	R.	Pct.
Narveson	49	21	17	90	179	148	.553
Pope	19	18	16	79	235	128	.529
Driscoll	34	23	9	67	121	102	.719
Steele	34	17	9	127	190	120	.654
Pitchner	15	4	10	48	66	59	.296
Harrah	29	7	7	55	79	62	.469

No records available for either Moir or Chapman.

SPokane CLEANED UP ON FIRST WEEK

Bees Drop Saturday and Sunday Games; Extra Innings at Seattle

Dave Gregg's slants were entirely too much for the Victoria batters to solve, while the Indians batted Driscoll hard, registered ten hits, most of them of extra base variety, and Spokane won 4-1, and made it five out of six on the series. Gregg pitched a magnificent game, only three lone bingles being made off his delivery. Manager Delmas securing two safeties, while Wilhoit secured a single. Mike Lynch registered one of the longest hits ever made on the Spokane diamond, driving the ball over the left field fence for a home run.

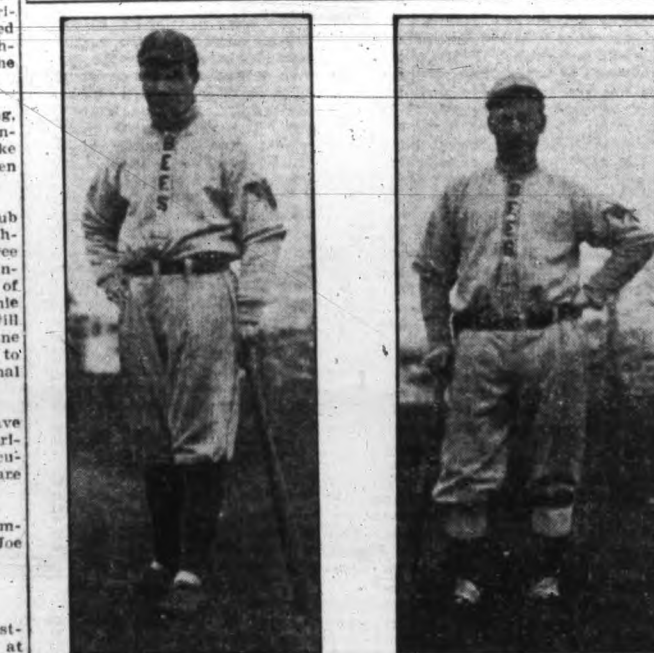

Seattle made it five out of six from Portland by defeating Nick's squad 2-1 yesterday in a hard-fought thirteen-inning battle. Both Stanley and Dell pitched good ball, and up to the eighth inning it looked like Portland's game. In this session Seattle tied up the score, and won in the thirteenth.

Vancouver won from Tacoma yesterday with Kaufman in the box, and broke even on the series, the final score being 5-1. Hunt in the box for the Beavers held Tacoma to seven scattered hits.

Fitchner's inability to locate the plate handed Spokane Saturday's game 11 to 1, the Indians also hammering the delivery of the former Walla Walla speed merchant for sixteen solid punches. Chapman went into the box in the seventh, and stopped the canonade, though the game was past redemption then. Victoria had a poor day in the field, tossing away four chances, while Baker held the Bees to five hits.

Tacoma pulled a ninth-inning rally on Vancouver, and won 8 to 4, after being three runs down in the last session.

BEES OPEN HOME SEASON TO-DAY

When Mayor Stewart pitched the first ball over the platter for this afternoon's combat between the Bees and Tigers, the local fans got their first real glimpse of the 1914 squad that will wear the uniforms of the Victoria club. Manager Delmas is not yet satisfied with the makeup of his team, and he will gradually strengthen it. There will be at least four new faces on the team before the end of the week, three of these players, Wilhoit, Carney and Nye, having joined the club at Spokane. Al Narveson is expected to arrive here this week.

PEEP AT OUR NEW HATS

Our West Window is full of new Spring Hats in the correct styles approved by the best dressed men of New York and London, including all the most popular makes.

Stetson's are in a new range of shapes as well as smart and exceptionally attractive shades of the favorite colors. This standard make requires no introduction. Prices run at \$5.00 and \$4.00

Roelof's "Topmost Hat" is an entirely new shape this season. To realize the distinctive appearance of this Hat, it is necessary for you to see it on your head. Come in and try how it suits you \$4.00

Stetson's and Roelof's Hats have the Puggaree Bands.

Imperial Hats—A splendid wearing quality of soft felt in the popular shapes \$3.50

Kenmore's English Soft Felts in several shades of green, or pearl grey with the fancy band \$3.00

In rich brown shade, this shape also at \$3.00
Caps at All Prices to \$2.00 from 75c include a big range of checks in different sizes. Checks are the strong favorites this season.

SPORTING GOSSIP OF THE DAY

Tacoma starts a week's series with the Bees to-day.

Bays handed the Wards the Island soccer title.

Amateur lacrosse was given a good send-off on Saturday night.

Freddie Welsh is the only man that Ritchie has to beat now.

Even Fitchner's fast ball refused to fool the Indians.

Several changes are likely in the Bees' twirling staff.

Hines certainly played grand football for the Bays.

Allie McGregor intends trying out for the position of goal-tend with the Representative twelve.

McCorry, Baker and Schneider are the Northwestern twirlers to win two games.

Sam Lorimer saves up his good football until the end of the soccer season.

Victoria's hitters have not yet started to locate the pill with runners on the sacks.

Evidently Bob Brown misses such men as Kippert, Konnick, Walsh, Schultz, Ingersoll and Schmutz.

Victoria would like to have Kanteleiner right now to bolster up the slab artists.

Lomas starred in the nets for Lorimer's crew against the Sons at Oak Bay.

St. Francis played stellar baseball in beating the Asahi team at Beacon Hill.

Scotty McKay will be unable to fight for some days. One of his thumbs is badly sprained.

Tommy Murphy apparently was too old to cope with such a hard hitting youngster as Ritchie.

Connie Mack and Muggsy McGraw are having a hard time getting their pennant winners licked into shape.

Wests started poorly in the Island league, but they surely wound up like champions.

This coming bout between Scott Cropper and Jack Larrigan will decide Victoria's representative at the P. N. A. bouts.

REMARKED ON THE SIDE

Sons Falter When Clutching Island Title.
Though too much credit cannot be given the Bays for their clever win over the Sons of England on Saturday, it will always remain a mystery to the followers of the Sons why their club did not win the championship when they had such a grand chance to land the honor. The Sons will never be in a better position to haul down any championship, but with their full team in the field they could not outscore the Bays, who outplayed them all through Saturday's fixture. It was rather a coincidence that the Bays should hand the Wards the title, and also the Island league honors after they had been put out of the running. This condition of affairs was reversed a couple of years ago, when the Bays were handing championships over to the Wests.

Spokane and Seattle Get Running Starts.
It was a lucky thing for Mike Lynch and Tealey Raymond that they drew Victoria and Portland for their opening weeks. The Bees were rather disorganized because of the change in owners, while the club needed several men when they struck the Empire City. Delmas' crew will be a greatly different aggregation opposing the Tigers on the home lot this week, and the dopesters are calling them to haul down four out of the six games or even better. The addition of Wilhoit, Carney and Nye is going to make a huge difference in the work of the locals. Portland went to Seattle with a patched-up team and nil Nick Lynch receives assistance from the Coasters, he will not be able to cut much of a figure. Judge McCredie has promised help and before many days have passed the Colts will be up there battling with the rest of them. Tacoma looks a greatly improved club and providing it has plugged up the cap on the short field, it will be a mighty tough proposition with the Iron Man at the helm.

When You Travel Far

The reason why you can spot a Farmer in town or an alien in the country is by his clothes.
In England they say "I can tell you are an American by your clothes."

By facial and sartorial marks you distinguish one foreign to your field.

A Cosmopolitan is a man who feels at home and who looks at home anywhere.

Semi-ready Clothes have that cosmopolitan air which will give their wearer perfect aplomb wherever he goes.

We show some Foreign Travel Suits and some Tourist Clothes at \$25, \$30 and \$35—perfect gems of cloth-making and fine tailoring.

NOTICE.

Notice is hereby given that we intend to apply to the Board of Licensing Commissioners for the City of Victoria, at its next session, for a transfer of the license to sell intoxicating liquors on the premises situated on Store street, in the City of Victoria, known as the Royal Arms Hotel, from Walter Poole to James Dupen, of the City of Victoria.

Dated this 21st day of March, 1914, at Victoria, B. C.

WALTER POOLE,
JAMES DUPEN,
Applicants.

NOTICE TO CREDITORS.

Estate of the Late Mrs. Jane Barnes.

All persons having claims against the Estate of the above deceased, who died at Victoria on or about the 14th day of March, 1914, are hereby required to send particulars thereof in writing, duly verified, to the undersigned, on or before the 15th day of May, 1914, after which date the Executor will proceed to distribute the assets of the said deceased having regard only to the claims of which he shall then have had notice.

Dated at Victoria, B. C. this 7th day of April, 1914.

E. E. WOOLTON,
Of Bank of Montreal, Chambers, Haastion Street, Victoria, B. C., Solicitor for the Executor.

TENDERS FOR RE-SURFACING VANCOUVER STREET WITH ASPHALT.

Tenders will be received, addressed to the City Engineer, City Hall, Victoria, B. C., up to noon on Tuesday, April 21st, 1914. Plans and specifications may be seen, and forms of tender obtained at the office of the City Engineer, City Hall. Envelopes containing tenders must be plainly marked on the outside "Tenders for re-surfacing Vancouver Street," and accompanied by a check for the sum of five per cent of the amount of the tender. The lowest and best tender not necessarily accepted.

C. H. RUST, City Engineer.

April 14, 1914.

NOTICE.

In the Matter of the Estate of Bertha Bornstein, Late of the City of Victoria, Deceased.

NOTICE is hereby given that all persons indebted to the above estate are required to pay the amount of their indebtedness forthwith to the undersigned, and all persons having claims against the said estate are requested to send particulars of their claims, duly verified, to the undersigned on or before the 1st day of May, 1914.

Dated this 21st day of March, 1914.

YATES & JAY,
Solicitors for the Executors,
416 1/2 Central Building, Victoria, B. C.

CORPORATION OF THE DISTRICT OF OAK BAY

Notice is hereby given that the Sewer and Water Frontage Assessment Roll for 1914 has been filed in the Treasurer's office. Any person dissatisfied with said assessment may petition the Council not later than May 1st, 1914.

F. W. CLAYTON,
Treasurer,
Municipal Hall, Oak Bay, B. C., April 1st, 1914.

NOTICE.

In the Matter of the Estate of James Watson Devlin, Deceased, Late of the City of Victoria, B. C.

TAKE NOTICE that administration of the estate of the said James Watson Devlin has been granted to Laura Ashton Phillips by the Supreme Court of British Columbia.

All persons having claims against the above estate are required to send particulars thereof, duly verified, to the undersigned, on or before the 10th day of May, A.D. 1914, after which date the Administratrix will proceed to distribute the said estate according to law, with regard only to such claims of which she shall then have had notice.

Dated at Victoria, B. C., this 5th day of April, A.D. 1914.

MARTIN & LEMSEN,
Of 305 Pemberton Building, Victoria, B. C.,
Solicitors for the Administratrix.

Newfoundlanders

A public meeting of Newfoundlanders and others interested will be held at the offices of Messrs. Macfarlane and Gordon, Union Bank building, on Tuesday, the 21st day of April, at 8 p. m., to consider some method of assisting those who have suffered from the recent sealing disaster in Newfoundland.

TENDERS

Sealed tenders addressed to the undersigned will be received for excavations, basement, etc., in connection with new church building, corner of Figgard and Quadra streets, up to 6 p. m. on Thursday, the 23rd instant. Plans and specifications can be seen at the schoolroom, Figgard street. The lowest and best tender not necessarily accepted.

J. G. BROWN,
Sec'y Bldg. Committee,
First Presbyterian Church,
1206 Fernwood Road.

FIRE PREVENTION.

Attention is hereby called to the following provision of the Fire Prevention By-Law, namely: "Every owner or occupier of a building shall at all times keep the roof of such building free and clear from moss or vegetable growth and particularly shall in the month of May in each year clear the roof from such growth."

WILLIAMSON & POWELL,
City Clerk's Office,
Victoria, B. C., April 17, 1914.

PROTEST SENT TO CUP TRUSTEES
COAST AMATEURS ELECT OFFICERS

Double Schedule for P. C. A. L. A.; Ed. Christopher Chosen President; Locals Practice This Evening

Protesting strongly against the action of the Mann cup trustees in ordering the Vancouver Athletic club twelve to defend the Mann cup during the playing season, the P. C. A. L. A. at its annual meeting Saturday night backed up the Terminal City twelve in its opposition to the dates selected for the cup games. The Coast officials feel that the cup trustees are taking away the choice dates for the cup games. Colquhoun will play at Vancouver on May 25, while Brampton will be along about the end of June to take another big holiday game. The coast clubs are playing a double schedule for their three-team league, but the different clubs do not like the idea of the Mann cup games season. It is likely that Joe Lally, the Cornwall trustee of the Mann cup, will be asked to offer a solution.

Ed. Christopher, of Victoria and Everett, and Taylor, also of the capital, were chosen president and secretary of the association at the annual gathering. Five referees from each city were named, from which the officials for this year will be selected and a double schedule adopted. V. A. C. will open the season at Westminster on May 16, while Victoria's first lacrosse battle of the season will be staged on May 25, at the Royal Athletic park, when the Westminster twelve play here. J. I. Keary, of Westminster, the retiring president, occupied the chair, and from the evident enthusiasm, lacrosse is destined for a big year on the coast.

The first practice of the Victoria club will be held this evening, when it is probable that a manager will be

chosen. Boss Johnson has been spoken of and it is likely that he will be the selection should he decided to remain on the coast this fall.

Sam Lorimer will likely handle the Beach twelve in the junior series this year. The well-known soccer leader has a promising batch of youngsters under his wing and he says that lacrosse is sure to boom here this summer.

Sibby Nichols, the Vancouver home-fielder and hockey star, was in the city yesterday on a visit. He has not decided where he will play this summer and he looks for a blowup in the B. C. L. A. before many games have been played.

P. C. A. L. A. Officers.
Honorary president, His Honor T. W. Paterson; honorary vice-presidents, C. A. Welsh, New Westminster; L. Tait, Victoria, and W. Clark, Vancouver; first vice-president, Milton Oppenheimer, Vancouver; second vice-president, H. W. Sangster, New Westminster; council of management, Dr. Hall and Sam. Lorimer, Victoria; H. Fowler and W. Clark, Vancouver; and G. W. Grimston and L. Gregory, New Westminster.

The schedule was adopted as follows: May 16—Vancouver at New Westminster.

May 25—New Westminster at Victoria.

June 4—Victoria at Vancouver.

June 13—New Westminster at Vancouver.

July 1—Victoria at New Westminster.

July 4—New Westminster at Vancouver.

July 11—Vancouver at Victoria.

July 18—Victoria at New Westminster.

August 1—Vancouver at Victoria.

July 15—Vancouver at New Westminster.

August 29—New Westminster at Victoria.

September 5—Victoria at Vancouver.

which, May 15-21. Fraser Hale, another Chicagoan, formerly western inter-scholastic champion, is now on his way to England to play at Sandwich.

OPEN TOURNEY FOR
NORTHWEST GOLFERS

Lewiston Club Enters P. N. G. A.; Chick Evans to Compete in England

The annual tournament of the Pacific Northwest Golf association, to be held at the links of the Seattle golf club, June 23 to 27, inclusive, will be thrown open to amateurs of the United States, and not confined to the eleven golfing organizations comprising the association. This agreement was reached finally after the question had been submitted by President C. H. Clarke, of the Seattle club, to Secretary A. V. Macan, of the association, the latter passing it on to the directors and obtaining a multi-approval of the plan.

While this applies to the amateur championship fight it does not include the later medal scrap of four rounds, no professionals outside the Pacific northwest will be eligible. This was decided on when it became apparent that the money which goes into the \$425 purse is always subscribed, pro rata, by the clubs comprising the association, and it was deemed unfair to the dozen or more professionals employed by these various clubs to subject them to outside opposition. The purse indicated is a tentative amount as yet with the split to read: \$200, \$100, \$75 and \$50.

The tournament committee also has obtained the approval of the donors of the Thomas M. Green and the H. C. Henry trophies, which have been applied to the Pollack tournament each July, so that these trophies will be up for competition among the participants in the championship events. The Green trophy goes to the winner of the association championship and the Henry trophy to the winner of the women's championship.

Advices received from Secretary A. V. Macan, of the Pacific Northwest Golf association, indicate that the Lewiston Country club of Lewiston, Idaho, desires to become a member of the P. N. G. A. Inasmuch as it is the disposition of the association to take in all regularly organized and incorporated golf clubs, the Lewiston request will undoubtedly be approved.

This will make twelve members of the association. The thirteenth, privately, it is expected, will be the Earlington Golf and Country club. The latter's failure to attach to the sectional association is believed to have been an oversight.

Taking his departure this week for the east, where he will represent the Kelley-Clarke company, H. A. (Dixie) Heager, club champion, scratch man and chairman of the green committee of the Seattle Golf club, will, in all probability, not be able to return in time to take part in the Pacific Northwest Golf association championship the latter part of June.

When all is done, the prizes paid for and the cash for the open championship provided, it will be found that the Seattle Golf club, as host to the Pacific Northwest Golf association this year, will have expended approximately \$1,500 in prizes and prize money.

Chicago, April 20.—Charles Evans, jr., former western champion, will, on April 28, to participate in the British amateur championship play at Sand-

CLUBS ARE EAGER TO
ENTER CITY LEAGUE

St. Francis Team Easily Defeat the Visiting Asahi Club; Many Other Games

Interest is growing over the proposed extension of the City Baseball league this summer and a meeting will be held to-morrow night at the Y. M. C. A. for the purpose of organizing a solid association this year. The dropping out of the St. Francis club will leave the teams more evenly matched and greater competition is looked for. The Capitals, Printers, Eagles, Red Sox, White Sox and probably the Hawks will enter. A commercial league is also being talked of and an effort will be made to secure the Royal Athletic park for the senior league series.

Geo. Sidney's St. Francis team showed class before a large crowd at Beacon Hill on Saturday when it defeated the fast Asahi team of Seattle 16 to 5 in a spectacular ball game. The visiting Japanese showed a fine knowledge of the game, but the slugging of the Saints proved too much for them.

Federals defeated the Western Empire nine at the North Ward park in a ten-inning contest. Sounders clinching the honors for the Federals with a clean hit, scoring a runner from third. These teams will battle again next Saturday on the same grounds.

Pat Casey had his Printers on yesterday morning at Beacon Hill, the type-setters defeating a scrub team in easy style.

It is likely that the Asahi club will make another trip to the capital in the near future.

The University of Washington lost the series with the University of Oregon on Denny field largely through the inability to hit at three different times when the bases were full. The second game went to Oregon by a score of 4-3.

Skinner Poulin had his ice dogs working out in North Ward park. The team this year will be considerably strengthened.

The local Japanese nine defeated the Asahi club 9 to 8 at the Uplands yesterday.

TWO CHALLENGERS.

London, April 20.—Sir Thomas Lipton is having two Shamrocks built, according to a report from Dublin. This might account for the great secrecy which has been observed at the yards at Gosport, where they are being built.

ATTENDANCE RECORDS
BROKEN AT RANGES

Saturday Shoot Brought 160 Marksmen to Clover Point; Highlanders Win

All previous records for attendance at the Clover Point ranges were broken last Saturday afternoon. There were 160 marksmen present, all taking part in the shooting. It was found necessary to leave out the 600 yards altogether and confine the shooting to seven rounds at 200 yards and ten rounds at 500 yards, a possible 35 points.

It is considered doubtful that any of the Victoria units will be able to fire any Canadian Rifle league matches this year, owing to the range being so overcrowded.

The team match on Saturday was again won by the Highlanders, this time by only three points.

SCOTT EXPEDITION.

The story of the Scott expedition will be told by Commander Evans, C. R. N., at the Royal-Victoria theatre, when he appears there on April 29. It is the story Capt. Scott would have told had he lived, that he brings, and he sinks his own identity as second-in-command of the expedition in his effort to give Capt. Scott all the glory, and that is no small amount. The world has waited for this tale of adventure, for in the midst of polar exploration, the Scott expedition laid claim most strongly on the interest and sympathy of all mankind. It was more than a mere dash; it was a noble attempt to benefit civilization and its record bristles with thrilling accidents. Not only are these told by Commander Evans, but they will be shown in moving pictures and still pictures, which are unparalleled for beauty and clearness, the famous ones by Herbert G. Ponting.

"DAVID GARRICK."

"David Garrick" is to be the offering of the Orchard Players of British Columbia at the Royal Victoria theatre this evening. To-morrow evening they are to play "The Truth."

The company consists of a band of actors and actresses with an English and American stage reputation already made. The Orchard Players come as a long-thought-of and carefully-planned organization and the scheme is one of the happiest that has ever emanated from the fruitful lands of this beautiful province. To take life seriously and life healthfully, with the motive force of native patriotism, to four and entertain with a repertoire of good plays, to possess and to cultivate their own orchard lands in due season, these are the aims of the players.

Miss Dora Rignold has played at His Majesty's theatre with Sir Herbert Tree, and Mr. Soames is associated with comedy fame in the immortal "Charles's Aunt." W. Sauter, the manager of the company, was associated with Sir Johnston Forbes Robertson, E. S. Willard, James K. Hackett and Eleanor Robson. L. Rose Dunrobin has played with Sir Henry Irving, Eleanor Robson, Madame Nazimova and with Fred Terry in "The Scarlet Pimpernel." Mr. and Mrs. Legge Willis are also well known in the world of histrionic art.

The Orchard Players carry special scenery painted by a well known Liverpool artist, Mr. McKie, who is now a British Columbian.

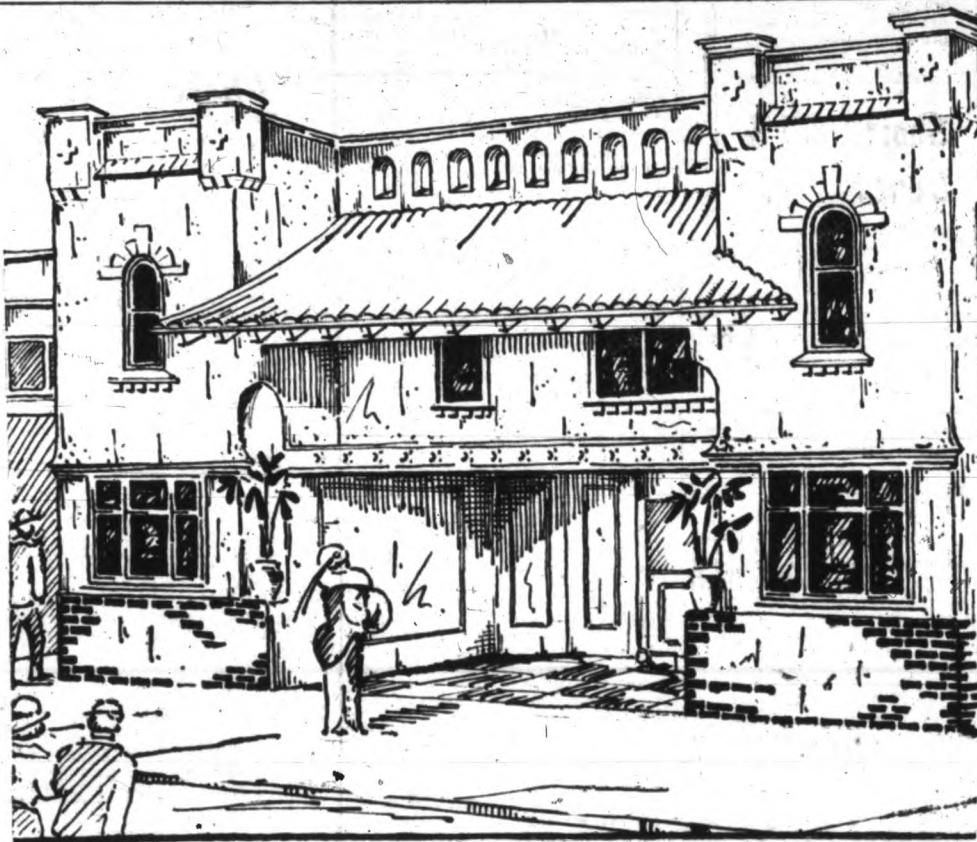

"David Garrick," the masterpiece of "Tom" Robertson, tells the story of how a wealthy London merchant tries to cure his daughter of her love for the great actor, David Garrick, only to have matters so fall out in the end that he begs Garrick to accept his daughter's hand.

In those vernal seasons of the year, when the air is calm and pleasant, it were an injury and selfishness against nature not to go out and see her riches and partake in her rejoicing with Heaven and earth.—Milton.

AMERICA CUP DEFENDER.

The announcement that all the bronze plating intended for Mr. Alexander Cochrane's yacht, which is now being built as a candidate to defend the America cup against Shamrock IV, has been condemned, caused considerable anxiety in sporting circles, a New

ESQUIMALT'S FIRST "MOVIE."

A moving picture theatre, the first amusement of its kind to be licensed by the municipality of Esquimalt, is to be erected on Esquimalt road near Head street. The pioneer movie house which is to cater to the tastes of Esquimalt citizens is to be capable of seating 400

York, message says. It is not known why the bronze plates have been refused, but it will take at least two weeks to make new ones.

This misfortune means that much of the valuable time required to tune up the craft will be lost, and if the two rival yachts for the defence of the cup are launched on time a handicap of no small size will be imposed on the Cochrane boat.

and is to be of unusual design, not heretofore used in the construction of any of the moving picture theatres in Victoria. It will be of mission style, included in the equipment is to be a stage large enough to be used for vaudeville, if required. The construction is to be of frame, made fireproof by metal lining partitions. There are to be

rooms for ladies and gentlemen. The building will possess a red brick base with stucco above, relieved by tile inserts, and a red Spanish tile roof over the entrance. The owner of the building is to be J. R. Butler, and the place will be taken over on lease by West & Knox, of the Oak Bay theatre. Cummings & Morcom are the architects.

ing of the Grand Trunk Pacific railway or National Transcontinental with these pleadings is too transparent to deceive even the least sophisticated of Colonist readers who recall the virulent attitude of that paper toward the latter enterprise until now. Apart from the fact that the government organ abuses the credulity of its readers in a manner that would be scorned by most other newspapers, the articles bear all the earmarks of laborious and brow-sweating production. They recall the dejected attitude of the hired man on the New England farm who plods his weary round of tasks, sick at heart because his employer is trying to produce a crop from soil which has long since been exhausted and under the further disquieting doubt as to whether he will be able finally to collect his own wages.

One of the things which your contemporary never tells the people when it is shedding information respecting the relative importance of these two railways—the C. N. R. and the N. T. R.—is that the Grand Trunk Pacific company is to pay the interest on the entire cost of construction after a limited period. The country has made an investment in a road which it owns and on account of the construction of which the interest charges will be borne by the operating company. In contrast with this fact the Canadian Northern Railway company will continue to collect the interest on the amount of its guarantees, in some instances far exceeding the cost of construction, for a quarter of a century, from the various provinces that have given the guarantees and one province at least stands likely to be carried up to pay the principal of its guarantees as well.

There is another line of striking demarcation between the responsibilities of the province and the Dominion respecting these two roads. In the case of the G. T. P. or National Transcontinental nearly every dollar found by the government has gone into actual construction work and value for dollar has been received by the country. On the other hand the outside investments of the chief factors in the Canadian Northern have been so numerous and of so varied a character that no man living, not even the most expert actuary, can tell how much of the money of the people raised under bond guarantees has gone into construction and how much into "subsidiary" but not tributary corporations. As your esteemed contemporary, in a burst of unintentional confidence, confesses, "the Canadian Northern system is the result of the consolidation of so many projects, with which nearly every government in Canada has been associated in one way or the other, that it is absolutely impossible to compare its actual cost with its expected cost." And when all the governments of all the prov-

inces involved in this gigantic enterprise have paid the last dollar of their bond guarantees; when the company has swallowed up the incalculable largesse it has received in direct contributions; when the railway is completed and in operation, the country will not have a single mile of its road, nor its terminals, nor its rolling stock, nor anything that is the company's. These are contracts to which the Colonist, in its ardour and zeal to see Mackenzie & Mann get a few hundred thousands of dollars more from the public trough, does not direct public attention toward.

But the most amazing statement of all appeared in the editorial pages of the Colonist on Sunday morning. It is this: Comparing the Grand Trunk Pacific with the Canadian Northern your contemporary says "the latter enterprise differs from the former in that its promoters have pledged their individual wealth to secure funds to meet the enlarged outlay."

When was this amazing pledge given? It has been the constant grievance of critics of the Canadian Northern that, while its promoters are "rolling in wealth" and interested in perhaps half a hundred subsidiary or independent

corporations, they are constantly knocking at the doors of parliament and lobbying for one end of Canada to the other for money pay from the public coffers. No official of the company has made the assertion that the promoters had "pledged" a single dollar of their individual wealth to carry out their national enterprise. All their money has gone into "private" investments. There was a rumor at Ottawa that the government of Mr. Borden would require the pledging of the personal properties of the promoters of this road as a security for further aid, but that was long ago, and not even the Ottawa telegraphic news agent of this province is the worst. What good it will do to postpone or procrastinate the general knowledge of this fact cannot be conceived by anyone outside the office of a government minister responsible for the disheartening and indefensible bargain. If the game is to save Sir Richard from dishonor until he can get safely away to London and leave "posterity" to grapple with his aftermath of incapacity and bungling, let it be so understood between ourselves and let us hush the matter up. The facts will come out soon enough, and though Sir Richard may then be cutting a wide swath in high society in London, there will be enough of us left in this country with faith in its possibilities, and its future under capable administration, to pay the long levy of taxes that have been entailed.

Apologizing for the length of this letter, which the circumstances seem to warrant, and with the desire to see the public undeceived, I enclose my card and I think you will agree that I have got the

PERSPECTIVE.

HINDU EXCLUSION.

To the Editor:—Premier McBride has been to Ottawa, and the immigration question has been thrashed out; and he says that no offence is intended against the Hindus. By an order-in-council the powers that be, bought a leap-hole

in their course of justice to make a continuous journey from India a necessity of landing here. After a test case Chief Justice Hunter supported the idea that the Hindus are component parts of the British empire, and therefore free to travel without let or hindrance. As facts are now, it is impossible for the Hindus to leave India for Canada and their wives and children are absolutely debarred at present. Only a slight analogy exists with the exclusion of artisans, who cannot come to British Columbia till September, 1914. Let it be distinctly known that the Chinese and the Japanese have special treaties with Great Britain, and therefore cannot be debarred. The Japanese do not pay any head-tax. The Chinese do, but the Hindus claim to be in British Columbia, and vigorously excluded, and by an evasion of Chief Justice Hunter's decision it is very possible that those already here will be forced to return to India. Surely the position is a farce. Is Chief Justice Hunter right on the order in council? Do not the public see the inviolable distinction against the Hindus being no attainment whatsoever of our premier's policy of "no offence meant to you, Hindus and fellow-subjects of Emperor George V." The fact of Sir Richard mentioning that no offence was meant is a distinct avowal of the real fact that the Hindus are apart from opinion, being a subject of the British empire, who can demand protection in any part of the globe, is really a begging of the whole question. The Hindus have a just grievance, civic, national, international, ethical and humanitarian. By this discrimination against those who are the half million people of British Columbia doing the proper thing, in view of the safety of the British empire, in denying even to one Hindu justice courtesy and imperial consid-

eration, seeing that we are dealing with 350,000,000 of such units? Prevention is better than cure. Sir Richard would not like it to be handed down to history that in his policy of "no offence" he was the indirect means of causing an ill-feeling in the minds of highly educated men in India, who may not take the trouble to ask whether he thought it offence or not.

The ejaculatory and non-argumentative, "We don't want them here," is un-British, and not harmonious with the unity of the British empire. The writer is not unlearned in the facts of ancient history, and it is possible that a word upon the mission any point of view may not be out of place at this particular juncture. Abraham Lincoln said once, "You cannot fool all the people all the time."

W. DUDLICK JOHN, B. A.
The Poplars, Government street,
April 18, 1914.

THE IRISH "BOGEY."

To the Editor: The situation in Ireland to-day reminds one of "The Tugges at Ramsgate," in "Sketches by Box" (Dickens).

Sir E. Carson is "Capt. Waters," and Home Rule is personified by Cymon Tugges, who has been flirting (platonically) with Waters' wife (Ulster and perhaps Ireland generally). So Capt. Waters roars out "Slaughter, hand me your sabre." Mrs. Waters screams for mercy on Cymon, the Tugges shout "murder," and in the end old Mr. Tugges

(England) has to pay a considerable sum. The whole thing is transcendent balderdash, inimitable by any but the Irish, who are so keen on a "shindy" especially if there is anything to be got from England by it.

S. JAMES.

"TIP" IS CORRECT.

Lord Halsbury, in sternly reminding counsel at the Marconi inquiry that "tip" is not English, proclaims himself a severer judge than Murray. For this great word-hunter records the biography of "tip" as if he loved it. In the special sense which the ex-lord chancellor found offensive—a friendly hint of a good thing on the stock exchange—the suggestion is offered that it may come from the notion of tipping or lightly touching the arm or elbow of a person by way of a cautious hint, or, as an alternative, from the older phrase, to tip a wink. In any case, the use of the slang word goes back quite far enough to entitle it to the beginning of respectability. What the "Athenaeum" found useful in the "forties may not lightly be cast aside in these swifter days.—London Chronicle.

He that forgets his friend is ungrateful to him, but he who forgets his God is ungrateful to himself.—Bunyan.

Phoenix Bock Beer, \$1.50 per dozen quarts.

Shiloh

A safe, old-time remedy for coughs, colds, bronchitis and whooping cough. Does not upset the stomach. Perfectly safe for all ages, even nursing infants. A small dose, only, needed and gives quick results. A household friend to thousands of Canadian homes since 1870. Buy Shiloh for coughs and colds.

TO-DAY IN CANADIAN HISTORY

Major-General T. Bland Strange, at the head of an army of 650 men, composed chiefly of the Sixty-fifth battalion and the Winnipeg Provisional battalion, with a few mounted police and scouts, left Calgary twenty-nine years ago to-day to march to Edmonton, as a part of the military movement for the suppression of the Riel rebellion. Gen. Strange was an officer of long experience, who had spent many years in military organization work in the Dominion. Strange's army was the last of the three columns to begin its march. Middleton's column having started for the south Saskatchewan on the 6th of April, while Otter's column had spent nine days on the march from Swift Current to Battleford. Strange's division covered the 195 miles between Calgary and Edmonton in fifteen days, reaching the latter settlement on May 5. No difficulties of moment were encountered on the way, other than the obstacles of nature, and the troops were given a rousing reception when they reached Edmonton. The country around Edmonton had been ravaged by Chief Big Bear and his plundering braves, who had not only carried away and destroyed property, burned houses and assaulted women, but had also killed a number of settlers. At Frog Lake nine men, among them two priests, were slain. The Frog Lake settlement was distant about 200 miles from Edmonton, and near Fort Pitt, where there was a small garrison of mounted police under Inspector Dickins. The fate of the police was unknown, and Gen. Strange decided to go to their rescue, and also to seek to avenge the murdered settlers. Arrived at Fort Pitt, it was found deserted, and it was later learned that Dickins and his men, after a long resistance, had contrived to escape to Battleford. At the approach of the army Big Bear occupied an impregnable position at Frenchman's Butte. Strange awaited reinforcements at Fort Pitt, but Big Bear managed to evade the pursuit, and later voluntarily surrendered.

HUMAN PROCESSION

Rumania's rise from a position of slavish subjection to Turkey to a free and independent nation, the most progressive and enlightened of the Balkan states, has been accomplished during the reign of one monarch, Charles I., who was born a Prince of Hohenzollern-Sigmaringen just three-quarters of a century ago to-day, April 20, 1859. He was elected prince or hospodar of Rumania by a plebiscite on April 20, 1866, his twenty-seventh birthday, and was crowned king in 1881.

The territory of Rumania, recently increased by a conquest of a valuable stretch of country from Bulgaria, comprises the old Danubian principalities of Wallachia and Moldavia, of which the capitals were Bucharest, now the seat of government of the kingdom, and Jassy, respectively. These provinces formed a part of the ancient Dacia, a Roman province which was subdued by Trajan in 106. In the following century Dacia was abandoned to the Goths, and subsequently it was successively held by the Huns, the Scythians, by Charlemagne, and by the Magyars and the Turks. Russia annexed a part of Moldavia about a century ago, and in 1821 Wallachia and Moldavia were placed under the protection of the czar, although still Turkish territory. In 1854 the Russians quit the provinces, but the Austrians entered and remained until the government of the principalities was settled at a Paris conference, whereby there were to be two princes or hospodars, chosen by elective assemblies, and the suzerainty of Turkey was to be preserved. Alexander Couza was elected hospodar of both provinces. The union of the provinces

FIRST THINGS

under the name of Rumania was proclaimed and acknowledged by the Porte in 1861. Five years later a revolution forced the abdication of Prince Couza. The provisional government offered the crown to the Count of Flanders, father of the present king of Belgium, but he refused it, as later he renounced his rights to the Belgian succession.

Prince Charles of Hohenzollern-Sigmaringen was elected hospodar in 1866, and his arrival in Bucharest was marked by enthusiastic demonstrations. Later in the same year he was recognized by the Porte and was received at Constantinople. In 1869 Prince Charles married Princess Pauline Elisabeth, Countess of Neuwied, the beautiful and charming woman who was destined to occupy the Rumanian throne as Queen Elizabeth and to win world-wide fame as a writer under the pen name of Carmen Sylva.

In 1877, with the powerful aid of Russia, Rumania began her war for freedom from the Turkish yoke, and in 1878 was declared independent. The Prince and Princess were crowned in 1881. The "father of his country," as the Rumanians call King Charles, had no son, and the right of succession reverted to his nephew, Prince Ferdinand, son of Prince Leopold of Hohenzollern-Sigmaringen. Ferdinand is now in his forty-ninth year and is the father of six sons, so there is little danger that the royal house of Rumania will become extinct.

For Students, Young and Old A Complete Atlas For Times Readers

The Times has received from the printers a consignment of the **Canadian Home and Office Atlas of the World**

One copy of which can be procured by any subscriber to the Times on presentation of the coupon printed below and payment of \$1.25. This Atlas sells elsewhere for over double that price and is procurable in Victoria only through the Times. This is cost price to the Times in large quantities, our object being to provide readers of the Times with a book that they need.

The Atlas contains a new series of maps compiled from Government surveys and exhibiting the latest results of geographical research. The book contains 126 pages and is divided in four sections, as follows:

First Section, pages 1 to 62—Maps of Canada, the British Empire and all parts of the world; 62 full pages of beautiful and accurate maps.

Second Section, pages 1 to 40—Population figures of all cities and towns of Canada, principal cities of the world and a descriptive gazetteer of the principal cities of the world.

Third Section, pages 1 to 8—The World in half-tone.

Fourth Section, pages 1 to 16—Panama and the Canal.

The Atlas, complete in every respect, is well printed on heavy paper and bound in heavy covers. It is in every respect a book that every home in Victoria should possess, and for students, whether young or old, is simply indispensable. Many Atlases have been published but one so complete has never been offered at such a remarkably low price. All the maps and other information are brought up-to-date, the book having just come from the press. The Times offers it only to subscribers and readers who present this coupon at the Times office, where the book can be inspected. Sent by parcel post at same price.

FOR SALE—Cow, good milk; and yearling colt, \$150. Mrs. Hill, Mt. Foinis.

CITY'S ACTION DISMISSED

Ex-Mayor Morley's Suit Against County Club to Prevent Race Meets is Ended.

The end of an aged lawsuit came quietly and peacefully in supreme court chambers this morning. H. W. R. Moore, F. A. McDermid and Mr. Justice Gregory witnessed the demise. There will be no funeral.

The name of the deceased, whose parent was ex-Mayor Morley, was Victoria City v. Victoria Country Club and his long and meteoric career endured over a period of something like four years. On several occasions he achieved great prominence, but on other occasions for periods of many months he lay in undisturbed obscurity in the sombre vaults of the court-house.

The late lawsuit was brought into this world with a view on the part of his parent to prevent the holding of race meets. He thrived in the late months of the summer during which his parent was mayor, but in Mr. Morley's time out of office came very near to death on several occasions. His departure this morning came somewhat unexpectedly, although ever since January he has been gradually sinking.

Mr. Moore was the immediate cause of death, although no coroner's jury should consist of the verdict. F. A. McDermid, the departed one's guardian, stood by without protest while Mr. Moore moved for his ward's dismissal for want of prosecution of the aims for which he was created.

Natural History Society.—At the meeting of the Natural History society this evening at 8, R. E. Gosnell is to deliver an address on Nootka.

St. John's W. A.—St. John's branch of the Woman's Auxiliary to Mission will hold its annual meeting for the election of officers in the guild room, Mason street, Tuesday afternoon, at 2.30. All members are requested to make a special effort to attend this meeting. An invitation is extended to all ladies interested in mission work.

TOO LATE TO CLASSIFY

BEE FARM FOR SALE—Modern, complete and revenue producing concern of 41 colonies of bees, over 100 supers, 800 extracting combs, extractor with all necessary appliances. Particulars, Langstrath, P. O. Box 170, Victoria.

WANTED—Good building lot in Fairfield; must be near street, with owners only. A. D. Malet & Co., 321 Central Bldg.

\$2,500 TO LOAN at 8 per cent. Dalby & Lawson, 675 Fort.

WANTED—Real snap, in a seven-roomed home in James Bay or Fairfield. Only a genuine sacrifice considered. Client will pay large payment and demands a full sized lot. Take place from money, see R. H. Duce, 1113 Douglas St., Phone 394 and 3508.

IF IT'S BROKEN we can weld it, cast iron, wrought iron, steel, brass or aluminum. Whether your broken parts are worth one or one hundred dollars, we save you money. Look around your house for anything that's broken, then consult the doctor. Acme Machine & Auto Co., 321 West street. Phone 226.

FOR RENT—Fully furnished 5-roomed cottage, with piano, gas, etc., near park and beach. Apply 1005 Oliphant ave.

FOR RENT—Furnished four-roomed bungalow, careful tenant. 933 Green street.

BORN

MERRYFIELD—To the wife of G. S. Merryfield, a son, April 18.

McQUEEN—On the 19th inst., at 814 Johnson street, to Mr. and Mrs. James McQueen, a son.

IRVINE—To the wife of J. Irvine, April 18, a daughter.

DIED

STEPHEN—On the 17th April, 1914, at Missoula, Montana, Jean Alice Stephen, daughter of Mr. David Stephen, of this city, a native of Victoria, B. C. The remains arrived on Monday morning, and the funeral will take place from Mr. Stephen's residence, 545 St. John street, on Tuesday, April 21, at 4 p.m., and a few minutes later at St. James Church, James Bay. Interment in Ross Bay Cemetery.

C. H. JOHNSON, EMBALMER AND DIRECTOR

PROVINCIAL CHAPTER HAS ANNUAL MEETING

Daughters of Empire From City and Mainland Gather in Victoria

A large gathering of officers and members representing the different chapters of the Imperial Order of the Daughters of the Empire, assembled in the Alexandra ballroom this morning for the first annual meeting of the provincial chapter. The room was charmingly decorated for the occasion with large bowls of lilac, dogwood and flowering broom. The provincial chapter represents an amalgamation of the various city chapters of Victoria and Vancouver, and several delegates from the latter city were in attendance.

Mrs. Henry Croft, regent of the provincial chapter, was in the chair, and beside her on the platform were Lady Tupper, Mrs. Henshaw and Mrs. Carry, of Vancouver, and Mrs. Bowser, Mrs. Hasell and Mrs. H. C. Hanington, while among those noticed in the audience were Mrs. Home, Mrs. Curtis Sampson, Mrs. W. J. Roper, Mrs. Mac-Micking, Mrs. Macfarlane, Mrs. Hatterbury, Mrs. G. F. Mathews, Mrs. A. Trines and Mrs. Gavin Burns, regents of their respective chapters, and Mrs. Néroutos, Mrs. Griffiths, Mrs. Jenkins, Mrs. Thomson, Mrs. Innis, Mrs. Miller, Mrs. Guy Langton, Mrs. Newton Burdick, Mrs. Nathaniel Shaw, Mrs. J. A. Hall, Mrs. Pringle, Mrs. Dennis Cox, Mrs. Hardie, Mrs. J. D. Gordon, Miss Leach and Miss Munroe, as well as many others.

Messages regretting inability to attend were received from Mrs. T. W. Paterson and Mrs. R. S. Day.

Proceedings opened at 10.30 with the ceremony of saluting the flag and a prayer for the king, pronounced by Mrs. Henry Croft, after which the standard bearers representing the nine different chapters filed up to the platform with their respective flags, and took their places. Then followed the reading of the minutes of the inaugural meeting of the provincial chapter, which took place a year ago, and the minutes of executive meetings held since that time. These were presented by Mrs. Hasell, as secretary of the chapter, and were formally accepted by the meeting. After the roll call had been taken Miss Leach and Miss Munroe were appointed returning officer and teller, in readiness for the election of councillors which was held in place towards the end of the meeting.

In connection with the forming of the executive a certain amount of disparity existed in the laws of the constitution, and a resolution was finally moved; after much discussion, that the executive of the provincial chapter should consist of twenty councillors who were to be elected and elected to be chosen from among the officers of the order. This resolution was moved by Mrs. H. C. Hanington, seconded by Mrs. Home and unanimously adopted.

Mrs. Croft then addressed the meeting. She extended a warm welcome to all those present, and especially to visiting members. She also very heartily welcomed on behalf of all the Daughters of the Empire their most valued officer, Mrs. Henshaw, of Vancouver, who was present as representative of the chapters of that city. All members were proud to hear of Mrs. Henshaw's success in her work in other parts of the empire, doing honor to the province, but they needed her at home, and hoped she had brought them encouragement from headquarters and their sisters in the east. She looked forward to a time when all cities of the province would be linked together in one glorious and united service. Referring to the chapter roll of funds, Mrs. Croft said, that were it not for the almost exhaustless bank of their womanly enthusiasm they would be poor indeed.

"Organization must be carried on, and must be systematic and the help, counsel and co-operation of the members were very necessary. What had to be carried on by correspondence, a correspondence vivid and regular, and this called for the aid of a volunteer who could give sufficient time and ability to serve this office, and make it her one great public interest and make to throne and empire."

One of the spirit of the L. O. D. E. was awakened to consistent service throughout British Columbia the position of the provincial chapter on a sufficient financial footing would be assured. Money was a means to an end, but the aims and objects of the alliance each chapter must decide in its own field of labor. To one these would appear bounded only by the frontier line of the great empire, to others the duties that lay nearest. Certain it was that while reaching out to the stars members must not neglect the flowers that grew about their daily paths.

As a true daughter of the west, who had watched with a full heart the struggling processes which turned the woods into cities and the life of the savage and the pioneer into the life of civilized and Christian communities she, the speaker, knew that the members' best work would be in the ennobling of stability in reform, and in the training of the children of the empire to a knowledge of their privileges and duties towards securing its prosperity both spiritual and temporal. Amid all the contrary winds and voices of twentieth century life, amid progress, education and revolution women had still the little children left to them.

The training in religious faith, in manners, life and conduct which would create a complete sympathy and a most natural devotion between king and people was one of the greatest factors in the growth of a country and the safety of the empire.

Following the president's address, the report of the treasurer, Mrs. W. J. Bowser, was presented and formally adopted, but the reading of the secretary's report, which had been practically covered by the minutes, was postponed.

The election of councillors was then proceeded with.

LOCAL NEWS

Wife Beating Alleged.—Charged in the dock with assaulting and beating his wife, Mary Smith, T. W. Smith was remanded in the police court this morning. The case will be continued to-morrow.

Resurfacing Vancouver Street.—Tenders for the resurfacing with asphalt of Vancouver street, from Humboldt street to Fort street, close to-morrow at noon.

Estimates for Sidewalks.—At the meeting of the Oak Bay works committee to-night estimates for some new sidewalks and other local improvements will be considered. No other business of importance is scheduled.

Conference Regarding Conduits.—A conference will be held to-morrow afternoon between the members of the city council and representatives of the B. C. Telephone company in regard to the underground system. The conference is being held at the request of the company.

Finance Committee Meets.—This afternoon being a civic holiday the usual meeting of the finance committee was held this forenoon instead of in the afternoon. There were only a few matters of routine business to come before it in any case, and these did not occupy much time.

Matter of New Clerk.—The question of the appointment of a new clerk to succeed A. B. Ellis, deceased, will probably be considered at this evening's meeting of the Esquimalt council. The report of the engineer recommending asking for tenders for more sewerage will also come in as well as various committee reports.

Charged With Fighting.—Tahaka Singh and Massa Singh, two big Hindus, were charged in the police court this morning with fighting yesterday on Government street. One of the turbaned men pleaded not guilty; the other said, "I fight, but I no guilty." The case was remanded until to-morrow.

Was Three-Ton Truck.—Finding that the truck sold the Victoria and Saanich Motor and Transportation company was a three-ton truck as represented at the sale, Mr. Justice Gregory has dismissed the action brought by that company against the Wood Motor company for damages on the grounds that the truck was only a two-ton truck.

Assessment Revision.—There will be a sitting on May 8 of the court of revision on local improvement assessments, to be appointed to-night by the city council. The assessments rolls, in the case of several streets have been completed and are now on view at the city clerk's office, where interested property-owners can inspect them.

High Wind on Sunday.—Boating was a poor pastime Sunday on account of the high wind which prevailed around Victoria. The wind attained a velocity of 33 miles from the southwest between 3 and 4 o'clock yesterday afternoon, but this was the highest recorded on the strait or the coast. The highest wind at Tatoush was 30 miles. A curious feature of the sale as it passed inland was that in Alberta and the prairie provinces it was accompanied by summer temperatures. At Swift Current the thermometer record was 78 degrees.

DIED IN MISSOULA.

Remains of Late Miss Stephen, Formerly of This City, Have Been Sent to Victoria.

News has come to the city of the death in Missoula, Montana, of Miss Jean Stephen, formerly of this city, who passed away suddenly in hospital after an operation for appendicitis. She had been in frail health for some months and her vitality was not equal to the shock of the operation. She rallied for a few days and then failed steadily until the end.

Miss Stephen was for eight years assistant and office nurse for Dr. Buckley in Missoula. She was born in Victoria about 35 years ago. Her father, David Stephen, was chief engineer of the C. P. R. coast service but is now superannuated and lives in Victoria, while a brother, E. R. Stephen, resides here also, another surviving brother being at Tacoma. There are three sisters: Mrs. Spring, now travelling abroad; Mrs. Jackson, of Tacoma, and Miss May Stephen, of Portland.

The remains have been sent to Victoria for interment, and the funeral will take place to-morrow at 4 from the residence of the father at 645 John street, and later at St. James church.

NEW HIGH SCHOOL IS NOW OCCUPIED

Chairman of Board and Inspector Attend Opening Session This Morning

Chairman Jay and Inspector Paul attended the opening of the new high school this morning and from the platform of the spacious assembly hall, addressed the pupils and teachers in a few well-chosen words on the fortunate circumstances which was befalling them. The chairs are not yet installed in the assembly room and the pupils stood this morning as Principal Willis gave his instructions respecting the allocation of the various classes.

The occasion was an enthusiastic one. The pupils and teachers alike were rejoiced at occupying a building so much more imposing than the old building on Fort street. The teachers were rejoiced because of the increased facilities for better work and the pupils principally because it was something new.

Principal Willis wasted few words in making known his wishes. The classes were assigned to their respective rooms, certain pupils being with held from each class to form an extra class necessitated by the fact that the rooms are smaller than those formerly occupied. Certain changes in the timetable of the lower grades were announced, but the matriculation classes were not disturbed at this late stage. The university classes were not in attendance in the assembly hall as they were busy with examinations. They occupied the building for this purpose last week.

Most of the announcements were received quite calmly by the assembled pupils, but there was visible rejoicing when Principal Willis informed them that for to-day the programme of five periods would be run through in about an hour, merely for the purpose of letting the pupils become acquainted with the location of the various rooms. School was therefore a very brief session.

Observation of the acoustics of the assembly room showed that it is somewhat difficult to hear the ordinary speaking voice in the centre of the back of the hall downstairs, but the corners are perfect. The official opening will be on May 1.

OBITUARY RECORD

The death occurred yesterday afternoon at his home, 538 Sumas street, of Richard Henry Cole, aged 75 years. The deceased was born in Prescott, Ontario, and was for many years a resident at Carleton Place, Ontario. He came to this city with his wife one year and nine months ago, and leaves to mourn his loss, besides his wife, five sons and five daughters. The remains are resting at the chapel of the Sands Funeral Home, where they will be forwarded to Carleton Place, Ontario. The date of removal will be announced later.

The funeral took place on Saturday afternoon at 3 o'clock at Albert Edward Bannister from the family residence, 54 Government street. There was a large attendance of friends and some beautiful flowers covered the casket. Service was taken by Rev. Dr. Leslie Clay, and the pallbearers were: Messrs. W. F. U. Cope, W. Walker, W. A. Gleason, J. A. Turner, A. E. Evans and J. A. Watson.

The funeral of the late Mrs. Mary Ann Hocking will take place to-morrow at 2.30 from the B. C. Funeral chapel, Rev. John Robson officiating. Interment will be in Ross Bay cemetery.

Sooke Poultry Association.—A meeting will be held in the school house, Sooke, under the auspices of the Sooke Poultry association, next Wednesday evening, April 22, at 8, when W. H. Hayward, M. P. P., will give an address on co-operation.

Social Service Club.—The final gathering of the Social Service club will be held at the rooms, Progressive Thought, Temple, this evening. The club has had a successful season and many have enjoyed the varied programme staged before them. After a short business session this evening an important concert and dance will mark the closing hours, to which members and friends will be welcomed.

Phoenix Bock Beer, \$1.50 per dozen quarts.

Mrs. A. E. Burt and Miss Edith Burt, 720 Vancouver street, will receive on Tuesday and not again this season.

SENTENCE IS REDUCED.

Smith and Cummings Unsuccessful in Main Appeal in Insurance Case.

Because his prior conviction was not cited in the information, Judge Lampman this morning partially allowed W. S. D. Smith's appeal and reduced the sentence from three months to a fine of \$50 with three months in the alternative. The option of the fine is only applicable where the offence is a first one, and his honor held that as the crown had not set up the first offence it could not demand sentence as for a repetition. Both Smith and Cummings failed, however, in the main appeal to quash the conviction.

DECLINE RAPID NEAR
CLOSING OF MARKET

Nervousness Outcome of Mexican Crisis but Pacific Tenor of Advices Steadies Feeling

(By F. W. Stevenson & Co.)
New York, April 20.—The list was not irresponsive to a better condition of feeling early, and operations for a further decline in prices were effectively repelled, but near the last nervousness was evident, and prices declined rather rapidly under leadership of such as Reading.

There was no visible change in sentiment, the all-absorbing topic being the Mexican crisis, to the exclusion of most all ordinary elements of strength such as satisfactory crop prospects and easier monetary conditions.

Advices as to the American policy to be pursued with regard to the belligerents took on a more pacific aspect, thus preventing considerable erratic action in the stock market.

The supreme court was in session and there was the usual anticipation of a decision being handed down in one or other of the important rail cases.

BEST SITE FOR GOLF LINKS AT ELK LAKE

Opinion of Aldermen and Citizens Who Visited Possible Places in Vicinity of City

After a tour of the likely sites for a municipal golf-links, which could be utilized should the city council decide upon establishing this attraction to tourists and convenience for citizens who desire to play the game, but have not the means to join the existing clubs, it was the opinion of the aldermen and citizens who went out on it that the most suitable place would be the lands adjoining Elk Lake.

Having come to this conclusion, a detailed report is to be prepared by a small committee of citizens and civic officials, giving an estimate of the cost of laying out an eighteen-hole course, for the information of the council in dealing with the matter. This committee consists of Mr. Justice Irving, Rev. J. G. Inkster, J. Thompson, City Engineer Rust and Parks Superintendent Purdy.

In addition to these gentlemen there left the city hall on Saturday afternoon Mayor Stewart, Aldermen Bell, Porter, Dilworth, Cuthbert, McNeill, McCandless, Todd and Sargent, J. Herick McGregor, and Mr. McCann, the expert who laid out the courses at Colwood and Qualicum. The party first visited Beacon hill, and then motored to Mount Douglas park, and from there to Elk Lake.

It was decided that there were many reasons why Beacon hill would be out of the question, particularly its increasing use by citizens as a pleasure ground. Mount Douglas park, it was found, would take a great expenditure to fit it for the purpose. But the land lying on the easterly and southeasterly shores of the lake, owned by the city, appealed to all as being admirably adapted to the laying out of a full eighteen-hole course that would be a credit to the city. The site of the land makes it readily adaptable for golfing, and it is easily accessible by road, by interurban street-car and by train.

Mr. Justice Irving, who has taken a deep interest in the movement for the establishment of municipal links, expresses himself as greatly in favor of the Elk Lake site. Having seen the others he is satisfied that it excels any site that could be secured in the vicinity of the city, and it admits of being utilized at a comparatively small outlay. While it might be found a little rough for a year or so, he says, that is a fault which was found with the Oak Bay links at first, and is one easily overcome as the greens receive continued attention.

Other members of the party were equally enthusiastic regarding the Elk Lake site, and agreed that it offered the opportunity of laying out a course that would be second to none on this coast.

INDIAN NATIONALISM

The Outlook Speaks Editorially of the Movement in Eastern Empire For Unity.

In a recent issue The Outlook refers editorially to the national congress held a short time ago in Karachi, in northern India, which it speaks of as one of the many indications of the growing feeling of nationalism among the people of India.

These congresses were inaugurated by the late Allan Hume, who was a member of the Indian civil service and a son of Joseph Hume, the economist; Sir William Wedderburn and the late W. C. Bonnerjee, who did much to place it on a substantial basis, and their encouragement was also a policy of the late Lord Dufferin when viceroy of India. Among the leaders of the congress the most remarkable has been G. K. Gokhale, member for Bombay in the legislative council, on the constructive and practical side, and the poet Rabindranath Tagore as an inspiring force in the national movement.

"While there has always been a certain sentiment of nationality," says the Outlook, "there has never been any predominant note of what might be called nationhood in India. Throughout the ages certain national ideals have ministered more or less to the imagination and culture of the people. But they have never made a practical nation of India, one desirous of occupying a prominent place in the realm of commerce and material things, nor have they ever brought about any real sentiment of unity among the various races."

"The three hundred million people in India, like the four hundred million in China, have not been able to resist a world-wide tendency during the past generation towards political unity and nationhood. And the singular thing about both India and China is that foreign control has aided the movement, sometimes by antagonism to it but more often by sympathy with it. This has certainly been true of the generally intelligent British control in India; it was latterly true even of the generally unintelligent Manchu control of China. It will be always true of any foreign control which, like that of the United States in the Philippines, means a rule purely for the benefit of the people ruled."

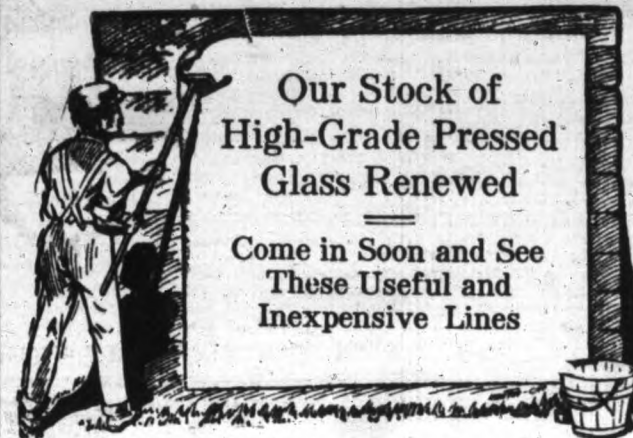

VICTORIA DRUGGIST HAS VALUABLE AGENCY

Hall & Co. has the Victoria agency for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-1-ka, the remedy which became famous by curing appendicitis. This simple remedy has powerful action and drains such surprising amounts of oil matter from the body that JUST ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. The QUICK action of Adler-1-ka is astonishing.

You'll Soon Be Wanting a Freezer. Why Not Get It Now?

"Lightning Freezers," being equipped with the famous wheel dasher and twin scrapers, makes the best of ice-cream with less ice, salt and time than any other freezer we know of. Sizes and prices as follows: 12-quart at \$11.00, 10-quart at \$9.00, 8-quart at \$7.00, 6-quart at \$5.50, 4-quart at \$4.50, 3-quart at \$3.50, 2-quart at \$3.00, and 1-pint at \$1.75.

It's Cheaper to Buy a Refrigerator Than to be Without One

In choosing our stock, efficiency was the feature to which we gave first consideration—the question of price came second. The result of a persistent search through Canadian and American markets is that we have no less than fifteen different sizes and styles from which you can make your choice.

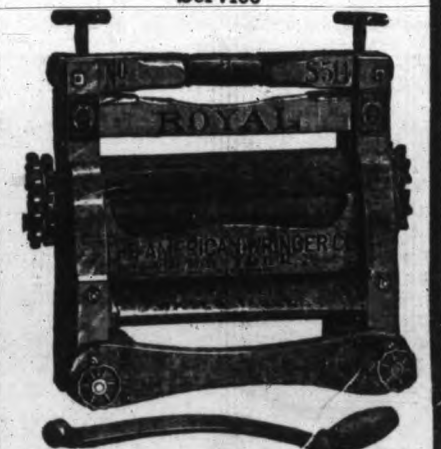

We guarantee absolute satisfaction to our customers. The consumption of ice in any of these models is the least possible, and the preservation of food is most efficient. Call in and see the refrigerator and let us tell you more about them. Prices start as low as \$12.50.

The Eclipse Bread-Maker makes perfect bread in three minutes. Thoroughly mixes the dough and is very easy to operate. A real help. Price \$3.50.

Easy Terms Easily Arranged at This Store

So don't attempt to get along without the furnishings you really need to make your home comfortable and convenient.

Wringers That Render Real Hard Service

The Royal Wringer has a reversible water board, and the rubber rollers are guaranteed, for family use, for five years. It is very strongly built, has a powerful spring, and the rollers are 12 inches long. Price \$11.00.

The Universal is a similar machine, guaranteed for three years. Two sizes in stock. Prices, \$7.00 and \$6.50.

The Rival is another excellent machine, warranted for one year. Price, \$5.75 and \$5.25.
